Chief Director

FOREWORD

Promoting access, equity and quality education in Ghana

This book is to give the Ministry of Education the opportunity to share with the general public our efforts towards improving Education service delivery in the country. It is also expected to afford us the opportunity to receive feedback on issues the public care most about. The Ministry wishes to refer to the near four year mandate of government from 2013 to 2016, while for the purposes of comparison and clarity of context, go beyond 2013 at appropriate times.

Over the past four years, the Ministry and its twenty agencies working with all our stakeholders have formulated and implemented policies and programmes that have led to steady and significant progress in the provision of quality, equitable and accessible education, and strengthened the management of education service delivery.

While we continue to work towards the elimination of outstanding challenges in the education system, we can conclude that we have done well as a country and that the state of education in this country is stronger than before.

This publication dwells largely on our achievements from 2013-2016 in the following areas:

Education Management and Administration, Basic Education, Secondary Education
Non-Formal Education, Technical, Vocational Education and Training, Inclusive and Special Education
and Tertiary Education. It is complemented by a text document on the Ministry's key achievements titled
"Four years of Equitable Access to Quality Education: The Story"

Given the progress made, we can confidently conclude that even though we have much further to go, access and the quality of education in Ghana over the past four years have improved.
We thank President John Dramani Mahama for his bold vision and commitment in leading us to achieve these gains. We are also grateful to him for the opportunity he gave us to serve this great country. We also thank all Ghanaians and our partners for their enormous support and contribution.

HON. PROF. NAANA JANE OPOKU-AGYEMANG

Minister for Education

EDUCATION MANAGEMENT AND ADMINISTRATION

Realizing that our effort at providing equitable access to quality education can only succeed in an environment of efficient management and administration of the sector, the Ministry has over the past four years implemented measures that have led to improvement in service delivery at all levels.

District Education Offices

To enhance service delivery and improve working conditions of education management units, modern district education offices are being constructed across the country. The evidence is as follows:

District Education Office, Akyem Swedru, Birim South District

District Education Office, Busunya, Nkoranza North District

District Education Office, Sawla, Sawla-Tuna-Kalba District

District Education Office, Kodie, Afigya Kwabre District

District Education Office, Lambussie, Lambussie-Kani District

District Education Office, Paga, Kassena Nakana West District

District Education Office, Afransi, Gomoa East District

List of newly constructed District Education Offices.

1. Ga East District Education Office
2. Saboba District Education Office
3. Kibi District Education Office
4. South Dayi District Education Office,
5. Birim South District Education Office, Akyem Swedru
6. Ledzokuku-Krowor District Education Office, Teshie-Nungua
7. Kpandai District Education Office, Kpandai
8. Sefwi Akontombra District Education Office, Akontombra
9. Shama District Education Office, Shama
10. Ketu North District Education Office, Dzodze
11. Sekyere Central District Education Office, Nsuta
12. Kintampo South District Education Office, Jema
13. Afigya Kwabre District Education Office, Kodie
14. Nkoranza North District Education Office, Busunya
15. Sawla-Tuna-Kalba District Education Office, Sawla
16. Lambussie-Kani District Education Office, Lambussie
17. Kassena Nankana West District Education Office, Paga
18. Gomoa East District Education Office, Afransi
19. Awutu Senya District Education Office, Awutu Beraku
20. Gwollu District Education Office
21. Assin Fosu District Education Office
22. Wassa Akropong District Education Office

Human Resource Management with emphasis on Teachers

Recognizing that the teacher is at the centre of our effort to improve management and administration of education service delivery and achieving desired quality outcomes, the Ministry has over the past four years prioritized human resource management, and has made significant progress in the following areas:

- **Human Resource Reforms**

Human Resource Reforms have been carried out to achieve greater responsiveness and efficiency in Teacher Recruitment/Replacement, Promotion/Upgrading and Payroll Management.

- Improving teacher training and professional development through the introduction of Transforming Teacher Education and Learning (T-TEL), Pre-Tertiary Teacher Professional Development and Management (PTPDM), Untrained Teachers' Diploma in Basic Education (UTDBE), In-Service Education and Training

(INSET), Management Training, Learning, Mathematics and Science training, ICT training.

- A policy of zero tolerance for teacher absenteeism was declared to enhance quality education through improvement in teacher accountability.
- Recruitment of 2400 Mathematics and Science teachers to address deficit.
- Abolishing the quota system at the colleges of education to allow for more teachers to be trained with the view to eliminating the trained teacher deficit. This led to enrolment increasing by 63.8% at the Colleges of Education in its first year of implementation.

The total staff strength of GES has increased by 18.2%, from 247,254 in 2008 to 292,238 in 2016 of which 78% of them are teaching staff.

Transforming Teacher Education and Learning (T-TEL)

T-TEL is a 4 year GHS 102 million project that seeks to enhance pre-service teacher education in Ghana by improving the quality of teaching and learning in all 38 public Colleges of Education (CoEs) and relevant national teacher training institutions.

The project works to ensure that Colleges of Education produces teachers who are well trained, prepared and motivated for a career dedicated to improving young minds. The following have been achieved under the project.

- Training and coaching for Colleges of Education (CoE) tutors in Mathematics, English and Science.
- Support the institutional strengthening and management of CoEs, including training of its Principals.
- Support the Ministry to reform the pre-service curriculum.

- Establish a Challenge Fund to finance innovative initiatives in CoEs and their partner districts and schools.

T-TEL has supported National Teacher Council (NTC) to develop the National Teaching standards for pre service teacher education in Ghana.

Under the project, a draft national teacher education curriculum framework has been developed.

Grants totaling approximately GHS 2,000,000 have so far been disbursed to 23 colleges to implement innovative concepts that would improve the quality of teaching and learning, and ultimately the skills of student teachers.

T-TEL has also developed handbooks for student teachers and their mentors to use during teaching practice. 40, 769 books have been distributed to student teachers.

Enhancing quality education through improvement in teacher accountability (Zero Tolerance for Teacher Absenteeism)

The Ministry adopted a policy of zero tolerance for teacher absenteeism in order to enhance accountability, and improve teacher presence as well as time on task in schools.

The National Inspectorate Board (NIB) and Ghana Education Service (GES) were resourced to intensify both external and internal supervision.

Additionally, 14 Nissan Navara vehicles were procured for the board. It is noteworthy that after three years of its implementation, the rate of teacher absenteeism has declined from 27% in 2012 to 7% in 2016.

It is expected that with these interventions, teacher absenteeism will be successfully eradicated.

In-Service Education and Training (INSET) Programme.

In order to build capacity and improve the quality of teachers for improvement in education service delivery, the Ministry organized In-Service Education and Training (INSET) programmes to update the skills of teachers at the school and district levels.

Through INSET, teachers have been supported to develop professionally by training them in areas they identify as their priority capacity needs. In 2015, a total of 1,000 Mathematics and 800

Science teachers across the country were trained. In addition, 10,749 core Mathematics teachers, 5,626 non-core subject teachers and 5,923 Heads from public basic schools in 75 deprived districts also received training.

A career development training to enhance teaching methodologies for 152,632 teachers at the basic school level to improve their ability to teach reading in the mother tongue and English is being implemented.

Accelerated ICT Education

In our effort to accelerate ICT education at the basic education level, 81,000 basic school teachers have been trained since 2013 to enable them acquire the requisite skills in the use of ICT in teaching and learning. A total number of 54,500 Laptops were procured and distributed to basic school teachers, and 60,000 laptop computers were distributed to public basic schools across the country.

Legislative Agenda.

Government has initiated bills that are designed to respond to the changing dynamics in professional education, education sector decentralization, book development, adult education, tertiary education and technical and vocational education. The following bills have been passed by Parliament and assented to by H.E. President John Dramani Mahama

- **Technical University Act, 2016 (Act 992)**

The Technical Universities Act, 2016 (Act 992) will upgrade Polytechnics into degree awarding Technical Universities to deepen and raise the quality of

technical education, address academic placement and alignment in the job market, make technical education more relevant and attractive to the youth.

- **University of Environment and Sustainable Development (UESD) Act 898**

To fulfil our government's objective of establishing a public university in every region in Ghana while increasing access and improving equity at the tertiary level, the University of Environment and Sustainable Development Act, 2015 (Act 898)

was enacted by Parliament. The university will disseminate knowledge related to development in environment, agro-business and train students to understand the issues of environmental challenges and provide solutions to emerging global trends.

- **Chartered Institute of Taxation Act, 2016**

The Chartered Institute of Taxation Act, 2016 (Act 916) has been passed to regulate the practice of Taxation as well as ensure that professional standards are maintained by members of the institute.

The statuses of work on the remaining bills are as follows:

- **Tertiary Education Research Fund Bill**

The Bill will provide a more sustainable means of funding research to drive national growth and development. It will support, publicize and provide funds for research in Public Tertiary Institutions. The Bill has been approved by Cabinet and is currently before Parliament for consideration.

- **The Chartered Institute of Bankers Bill, 2015**

The Chartered Institute of Bankers Bill, which is currently before Parliament is to ensure that banking and banking services are provided in a manner that is consistent with economic policies. This will help control, direct and manage banking practices and training.

- **National Accreditation and Qualification Authority Bill, 2015**

The National Accreditation and Qualification Authority Bill will ensure provision of quality, relevant academic and practical discipline in approved tertiary institutions. The Bill will also ensure the development of a qualifications framework for academic and professional qualifications. The bill is currently at the Attorney General's Department.

- **The National Commission for Tertiary Education Bill**

The NCTE Bill will enhance guidelines for the administration of tertiary education and institutions designated as institutions of tertiary education in Ghana in response to contemporary trends. The bill is currently at the Attorney General's Department.

- **Ghana Book Development Council Bill**

The purpose of the Bill is to establish the Ghana Book Development Council to oversee the development, regulation and effective planning of the book industry in Ghana to provide for related purposes. The Bill is currently at the Attorney General's Department.

Historic BECE Private Candidates Policy.

To create opportunities and introduce progressive flexibility, 1,181 and 1,413 candidates took advantage of the first and second Basic Education Certificate Examinations (BECE) Private Candidates Policy in 2015 and 2016 respectively to either improve on their performance or begin a formal education career. Successful candidates have since been mainstreamed into the SHS system.

Engagement with stakeholders

National Education Sector

Annual Review (NESAR)

Over the past four years, the Ministry sustained the conduct of The National Education Sector Annual Review (NESAR) to engage key stakeholders from academia, NGOs, Faith Based Organisations, MMDAs, Development Partners etc., to review our performance against targets set in the Education Strategic Plan. The review also created the platform for the Ministry to discuss critical and

emerging issues as well as offer opportunity for stakeholders to make inputs into the budget preparation process for the ensuing year.

Dialogue with Teacher Unions

The Ministry instituted quarterly engagements with teacher unions to discuss issues of mutual interest. This has assisted in improving service delivery and enhancing quality. The new partnership has

been instrumental in achieving the successes chalked in curbing teacher absenteeism.

Annual encounter with Student Leaders

An annual engagement with student leaders on the invitation of the Ministry of Education was introduced. This was aimed at fostering a stronger partnership between Government and student unions to mark a departure from the era of hostilities and agitations.

Campus Connect

The Ministry has improved upon its engagement with students and faculty through the Campus Connect Initiative. The initiative affords participants the opportunity to deepen their understanding of government policies while government receives valuable feedback within a commitment to good governance principles.

Engagement with Metropolitan, Municipal and District Chief Executives (MMDCEs)

To improve accountability and quality of education delivery in public pre-tertiary schools at the local level, the Ministry initiated a planned programme to hold yearly discussions with MMDCEs.

Discussions held centered on the roles and responsibilities of MMDCES as Chairs of the District Education Oversight Committees (DEOCs) in ensuring supervision and monitoring of schools within their jurisdictions to enhance quality education delivery at the local level. All MMDCEs were encouraged to establish DEOCs in their MMDs. Priority areas of focus included: education decentralisation, monitoring of infrastructural projects especially the Secondary Education Improvement Project (SEIP), and constitution of audit teams on teacher presence and time on task as a strategy to ensure effective teaching/learning.

These engagements have to a large extent facilitated improvements in teacher presence and supervision in our basic schools.

**PRESENTATION
OF VEHICLES TO
EDUCATIONAL
INSTITUTIONS**

To facilitate the management of education service delivery at the School, District and Regional levels, the Ministry procured and distributed 500 vehicles to educational institutions – Senior High Schools, Universities, Colleges of Education, Polytechnics, newly created District Education Offices and other education units.

Vehicles procured and presented comprise:

- 100 Units of 66-Seater Bus
- 200 Units of 33-Seater Bus
- 100 Units of Mahindra Double Cabin pickups
- 100 Units of Nissan Navara Double pickups

Prof. Fred Newton Binka, Vice chancellor of UHAS receiving keys to his vehicles.

COLLEGE OF EDUCATION

88	Central	OLA CoE
----	---------	---------

BASIC EDUCATION

Government's basic education programme over the past four years has focused on improving equitable access to quality, child-friendly universal basic education with emphasis on Teacher Professional Development and Accountability, Social Intervention Programmes, Provision of Teaching and Learning Materials and Infrastructural Development.

Early Childhood Care and Development (ECCD)

Under our Early Childhood Care and Development programme, the Ministry committed to:

- Increase access to Early Childhood Care and Development through encouraging the establishment of ECCD facilities
- Improve quality of Teaching and Learning through increase in the number of qualified teachers and the allocation of more resources for the provision of KG facilities.

In fulfillment of its commitment to allocate more resources to ECCD facilities, government has since 2013 increased public education expenditure on KG from an average of 3.8% of total education expenditure between 2005 and 2008, to an average of 6.5% between 2013 and 2016.

These resources have enabled government to recruit and pay more teachers at this level and also provide the following facilities:

- Rehabilitation of 345 KG classrooms
- Construction of 1,347 KG Blocks
- Provision of 1,875 KG tables and Chairs

Improved Quality of Teaching and Learning

Establishment of Special schools in designated Colleges of Education

In order to ensure that teachers in ECCD receive specialised skills in the delivery of quality teaching and learning at that level, the Ministry through the National Council for Tertiary Education (NCTE) has established Special schools in 7 out of the 43 Colleges of Education. These are:

- Ola College of Education, Cape Coast

- Presbyterian College of Education, Aburi
- SDA College of Education, Asokore
- St. Louis College of Education, Kumasi
- Tamale College of Education
- Jasikan College of Education and
- Tumu College of Education

ECCD Service-extension and Pre-service Training Programmes

As part of ECCD service-extension and pre-service training programmes, the University of Cape Coast and University of Education (Winneba) currently offer certificate, diploma, degree and post-graduate courses in Early Childhood Education.

These interventions have led to significant improvements in performance indicators relating to KGs. In order for the public to appreciate the results of the interventions better, we need to step back in time and deepen the context:

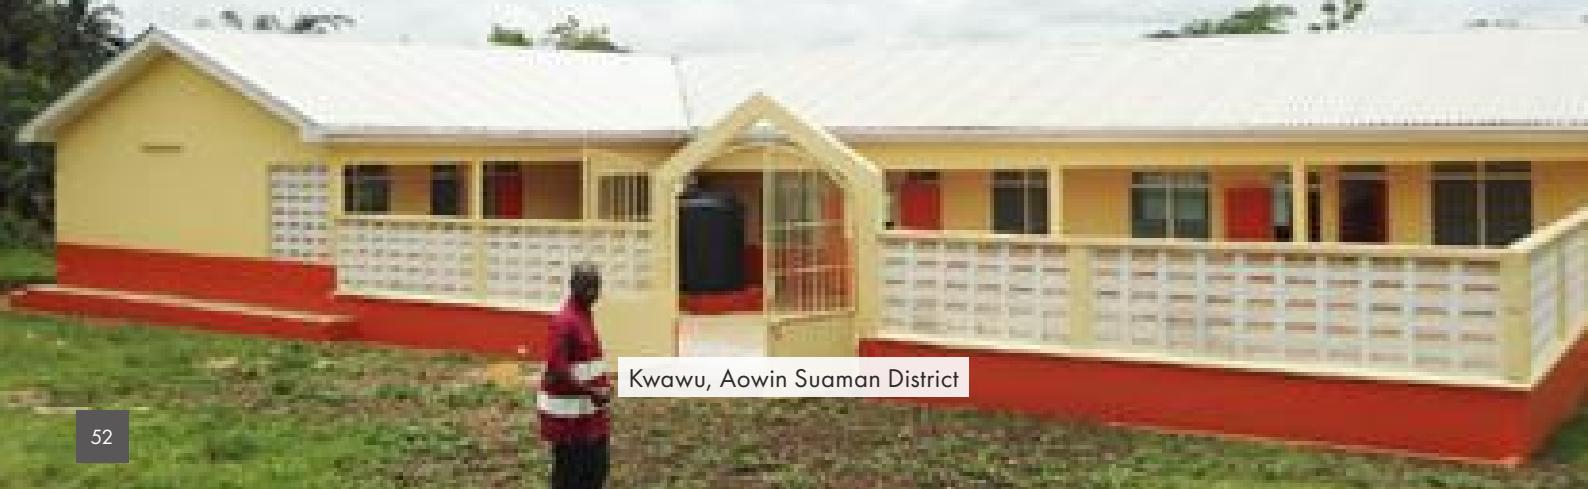

In line with its commitment to encourage private sector participation in pre-school activities, a number of ECCD facilities, public and private increased by 34.6%, from 16,439 in 2008/09 to 22,123 in 2015/16 academic year, while the gross enrolment ratio increased from 92.9% in 2008/09 to 123.8% in 2015/16.

It is instructive to note that whereas in 2008/09 only 31.3% of the 29,111 teachers engaged in public KGs were trained, by 2015/16, 65.9% of the 37,717 teachers engaged in KGs were trained.

The gender parity index also improved from 0.99 in 2008/09 to 1.01 in 2015/16 academic year.

Some kindergartens constructed over the last four(4) years.

Dadieso Methodist, Aowin Suame District

Asempaneye, Asuogyaman District

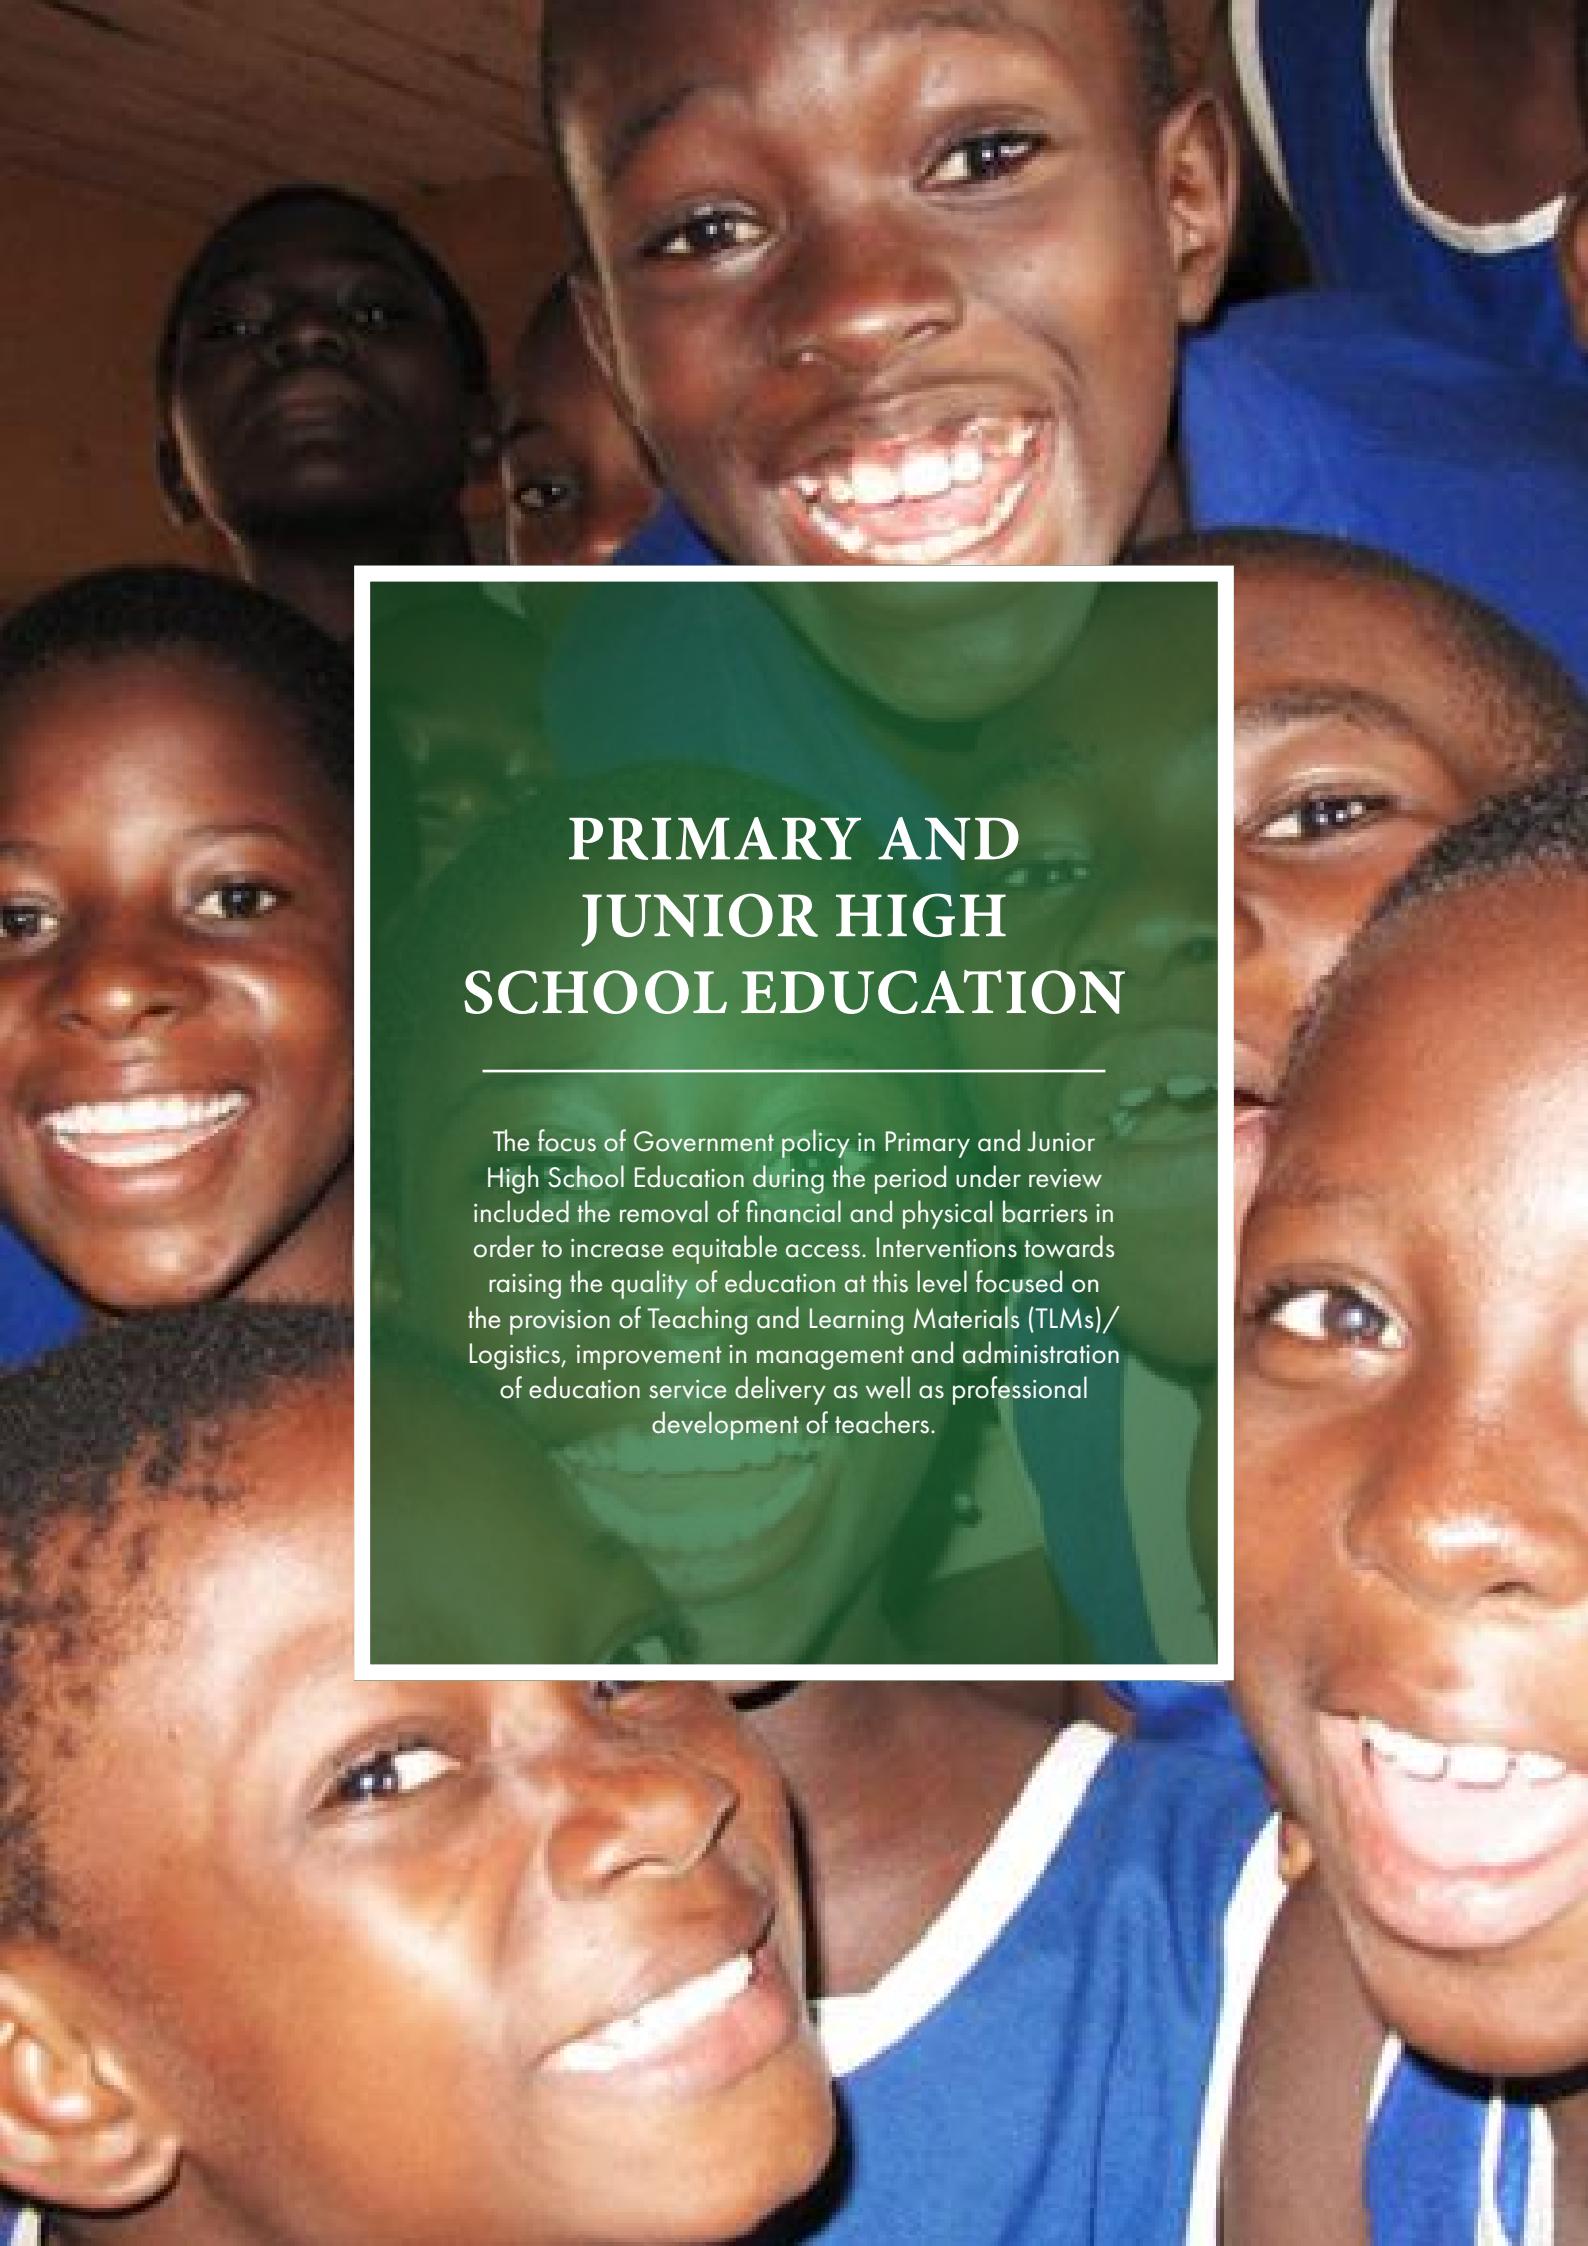

PRIMARY AND JUNIOR HIGH SCHOOL EDUCATION

The focus of Government policy in Primary and Junior High School Education during the period under review included the removal of financial and physical barriers in order to increase equitable access. Interventions towards raising the quality of education at this level focused on the provision of Teaching and Learning Materials (TLMs)/Logistics, improvement in management and administration of education service delivery as well as professional development of teachers.

Social Intervention Programmes

Government continues to introduce new social interventions and expand existing social intervention programmes with the aim of reducing the cost of education for families and households. These to a large extent have reduced the financial burden on parents, thereby enabling more children especially from deprived homes to access education.

Statistics show that enhanced social interventions lead to correspondent increase in enrolment and higher retention.

Provision of Free Footwear.

In 2015, government expanded its social intervention programmes with the introduction of free footwear for needy pupils. So far, 40,000 Made-in-Ghana school leather sandals have been distributed to pupils in selected deprived public basic schools.

Provision of Free School Uniforms

787,485 school uniforms were distributed to pupils in public basic schools in selected deprived communities in the country between 2012/13 and 2015/16 academic years.

Provision of Material Support to Needy Pupils.

Between 2012/13 and 2015/16 academic year, government procured and distributed 46,958,160 exercise books to pupils in public basic schools across the country.

During the period under review, assorted items including bicycles, footwear, uniforms, bags, notebooks, school bags, mathematical sets, solar lamps and calculators were procured and distributed to 155,781 pupils as incentives to improve the retention and transition rates.

Capitation Grant

During the period under review, government continued to pay capitation grant to all public basic schools across the country. A total amount of GH¢ 95.2 million has been released since 2012/2013 academic year for the payment of capitation grant. Currently, over 5.5 million pupils in 38,714 public basic schools are benefiting from the capitation grant.

The Grant was increased by 100% for 11,650 public basic schools in 75 deprived districts who, under the Ghana Partnership for Education Project (GPEG), received additional per capita funding. In addition to this, the schools received a base grant of GH¢800, GHS1,200 and GHS1,000, per KG, Primary and JHS respectively.

BECE Subsidy

Government continues to provide subsidy for the conduct of BECE to cover both public and private registered candidates. Between 2013 and 2016, a total amount of GHS 61.3 million was spent to subsidize the cost of registration for 1,651,687 candidates for the BECE. It is instructive to note that the amount paid by government per registered candidates has increased from GHS 14.0 per candidate in 2010 to GHS 44.10 in 2016, while at the same time the total number of candidates increased from 350,899 to 460,900.

Minister for Education addressing BECE candidates prior to examination

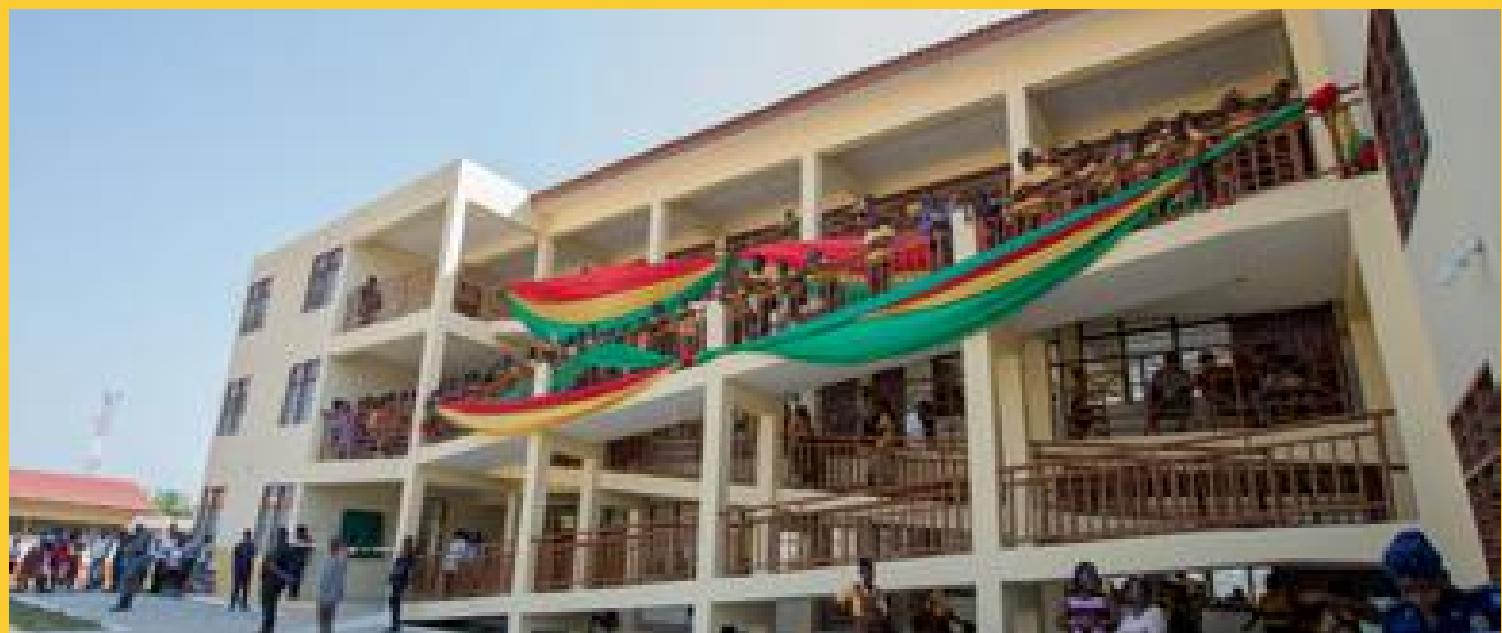

School Infrastructure

As part of efforts to remove the remaining 60% of schools under trees, a total of 2,031 out of 2,936 school projects awarded since 2010 have been completed and handed over.

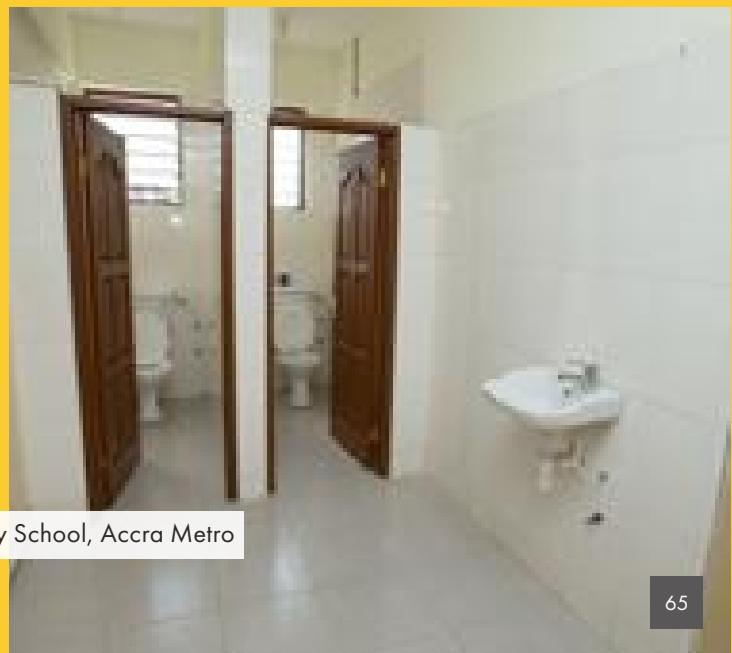

In addition, the Ministry and its partners have since 2013 completed the following projects:

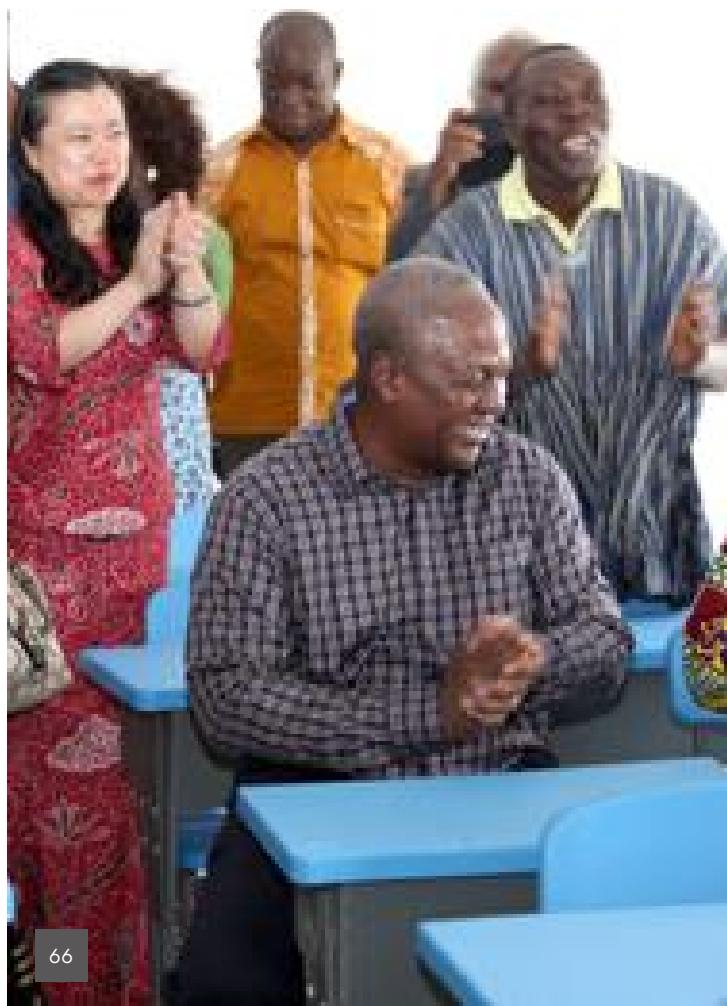

- 1,129 Classroom Blocks
- 739 Toilet Blocks
- 73 Teacher Accommodation Blocks
- 472 Urinals
- 622 schools rehabilitated
- 82 boreholes

A policy to eliminate the Shift System at this level was commenced and vigorously pursued. To achieve this, the millennium school concept was implemented.

Mamprobi Millennium City School, Accra Metro

Okpoti Millenium City School, Accra Metro

Odokor 5 & 6 Junior High School, Accra Metro

Dansoman 2 Junior High School, Accra metro

Supply of Furniture to Basic Schools

A total of 151,154 tables and chairs were procured and distributed to Primary and Junior High Schools across the country between 2013 and 2016.

Provision of Teaching and Learning Materials (TLMs)

During the period under review, the following school supplies were provided:

- 472,800 Teachers Notebooks
- 653,700 Class Attendance Registers
- 4,994,328 boxes of White Chalk and 180,000 boxes of Coloured Chalk

In addition, the following teaching and learning materials were also provided:

- 12.8 million core textbooks were procured and distributed to public basic schools
- 2.5 million Dictionaries were procured for distribution to all public basic schools.

Various types of TLMs were also provided to the 11,650 Basic schools under the GPEG Project in the 75 deprived districts through district and school-level funding. These include wall displays, teachers' notebooks, maps, teachers' guides, etc.

Basic Schools Performance Statistics

The implementation of Social Intervention Programmes (SIPs), Infrastructural Development and the provision of other resources at the Primary and Junior High school levels have resulted in the following key performance indicators.

The number of primary schools has increased by 24.9% from 17,881 in 2008/09 to 22,335 in 2015/16. Similarly, enrolment in primary schools increased from 3.7 million to 4.3 million.

The number of teachers engaged in primary schools increased from 114,421 in 2008/09 to 142,520 in 2015/16 academic year, while the percentage of trained teachers increased significantly from 58.4% to 78.0%.

During this same period, gross enrolment

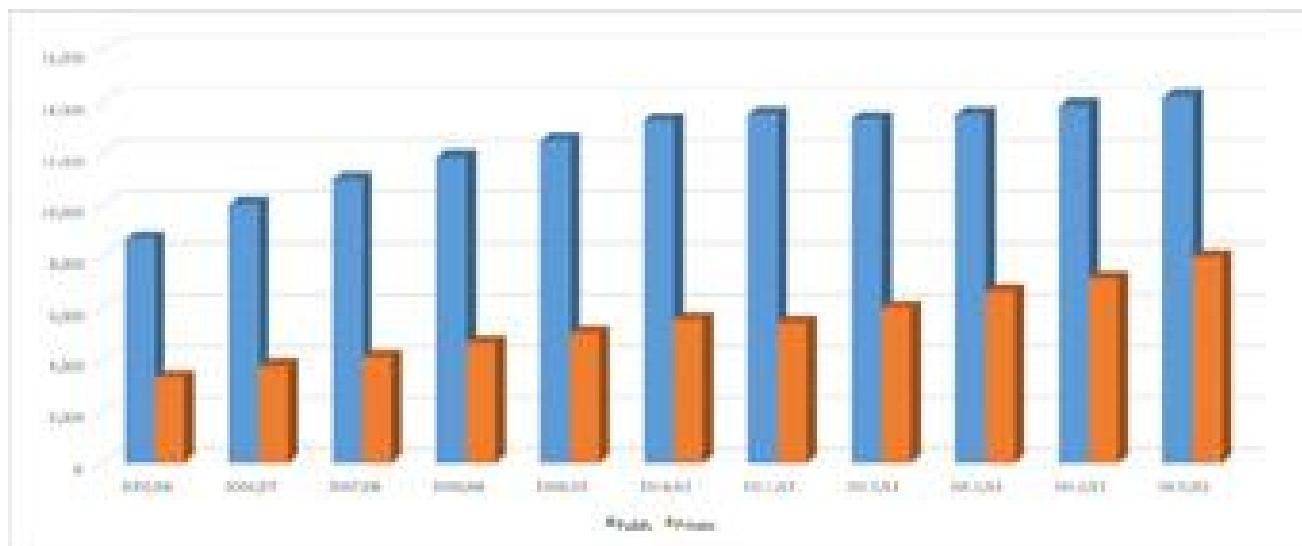

increased from 94.9% to 111.3% and net enrolment increased from 88.5% to 91.5%. It is instructive to note that the Gender Parity Index increased from 0.9 in 2008/09 to 1.01 in 2015/16.

At the Junior High school, the number of schools increased from 10,213 in 2008/09 to 14,832 in 2015/16. Enrolment also increased from 1.3 million to 1.6 million.

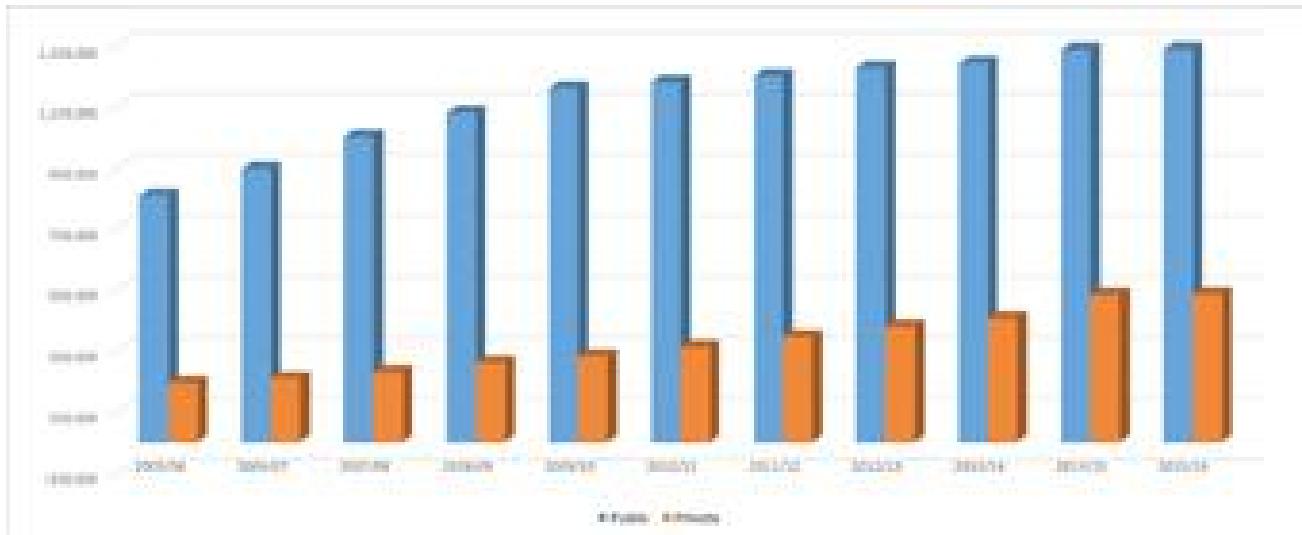

Similarly, the number of teachers engaged at the JHS level increased from 75,409 in 2008/09 to 107,099 in 2015/16, while the percentage of trained teachers in public Junior High Schools also increased from 76.7% to 89.6%.

The Gross Enrolment Ration increased from 80.6% in 2008/09 to 2015/16.

National Education Assessment (NEA) Results From 2005 to 2016

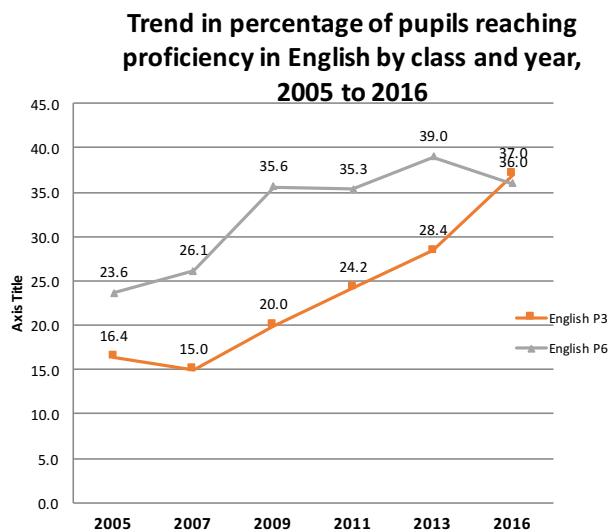

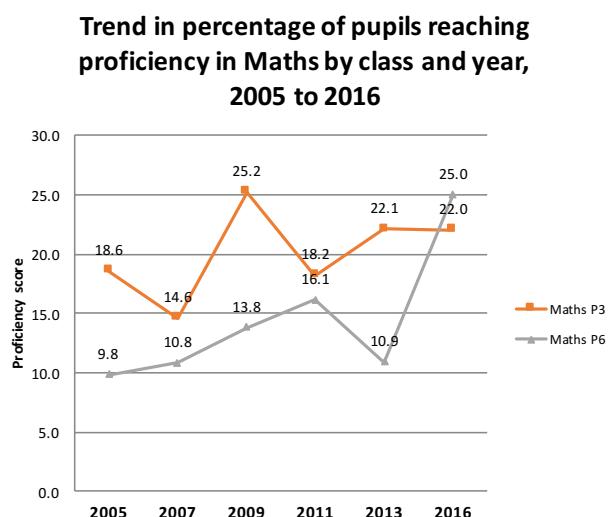

The National Education Assessment (NEA) is a biennial national and regional representative measure of pupils' competency and proficiencies in Mathematics and English at primary grades 3 and 6 (P3 and P6). The NEA tests are based on national curricula and are made up of 30 to 40 multiple-choice questions, administered collectively to pupils.

An analysis of NEA results over the period 2005 to 2016 shows an improvement in proficiency levels in both numeracy and literacy. At primary 6, overall distribution of pupils reaching proficiency, that is, obtaining a score of 55% and above in Mathematics at P6, improved from 9.8% in 2005 to 25% in 2016. At primary 3, overall distribution of pupils reaching proficiency in Mathematics improved from 18.6% in 2005 to 22.0.

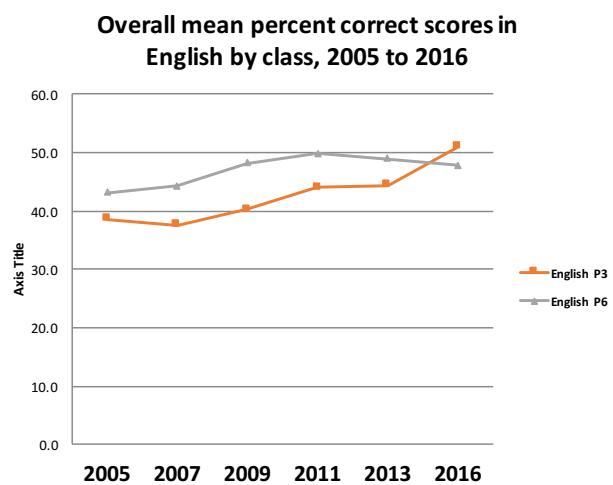

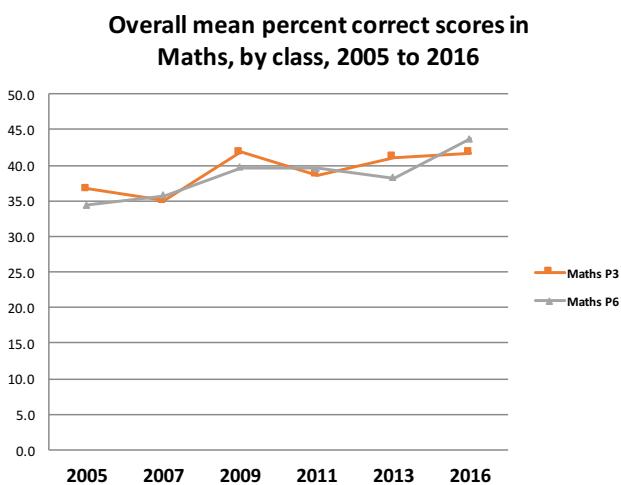

Proficiency in English for pupils in primary 3 also showed improvement from 16.4% to 37.0% from 2005 to 2016 respectively. For pupils in primary 6, proficiency in English improved from 23.6% to 36.0% from 2005 to 2016 respectively.

Performance in English stands to improve considerably by paying attention to the uses of L1 at the lower levels, improving the teaching of reading at the basic levels and de-emphasizing teaching language away from literature.

Trend in percentage of pupils reaching proficiency in Mathematics and English

Overall mean percentage correct scores in Mathematics and English 2005-2016

SECOND CYCLE EDUCATION

Under second cycle education, Government committed to expand equitable access to quality secondary education by the construction of the flagship Community Day Senior High Schools. The Constitutional requirement of Progressively free SHS also received attention.

Equitable Access

Our focus has been to:

- Expand access to secondary education through the construction of 123 Community Day SHS with emphasis on underserved communities
- Improve quality and expand facilities in existing secondary schools.
- Reduce cost burden on parents by increasing subsidies paid to students
- Strengthen the Computerized Schools Selection and Placement System (CSSPS) in order to make it responsive to its policy objectives

Community Day Senior High School Project

Under this programme, which is President Mahama's flagship, new Senior High Schools are being constructed in 123 locations across the country. Many of these projects have reached advance level of completion whilst some have been completed and commissioned. Others have been completed awaiting commissioning.

Each community SHS is a 4-Storey structure with the following facilities:

24-Unit Classrooms
Stocked Library
Assembly Hall
8 Offices
Head Teacher's Office
4 Laboratories (General science, Physics, Biology & Chemistry)
Computer Laboratory
16 Washroom Facilities

100 out of the 123 new schools discussed above are being funded by the Government of Ghana whilst the remaining 23 new schools are being

funded with a loan facility from the World Bank. The 23 new schools being funded by the World Bank have additional facilities such as;
Headmaster's Bungalow
Canteen Block
4-storey 8-Unit Teachers' Flat
Gate House

The intention of Government is to provide a similar set of facilities under phase II of the Government of Ghana Funded Projects.

In addition the Government is upgrading facilities at 50 less endowed Senior High Schools. Another 75 under-performing Senior High Schools are receiving quality upgrade. This involves building capacity for teachers and heads.

With the active collaboration of all stakeholders, the Community Day SHS project has made significant progress. Out of the 123 under construction, the first batch of 42 schools has admitted SHS students for the 2016/2017 academic year.

NOTE: As we have stated consistently, these 123 Community Day Senior High Schools have all been awarded on contract and are at various stages of the project cycle. Some have been commissioned by H.E. President John Mahama (Eg. Adugyama), others completed and yet to be commissioned (Eg. Lambussie), another set nearing completion (Eg: Kwabenya), while others progress at varying stages as we note that contract awarding dates and capacities of contractors differ.

LOCATION OF NEW COMMUNITY SENIOR HIGH SCHOOLS

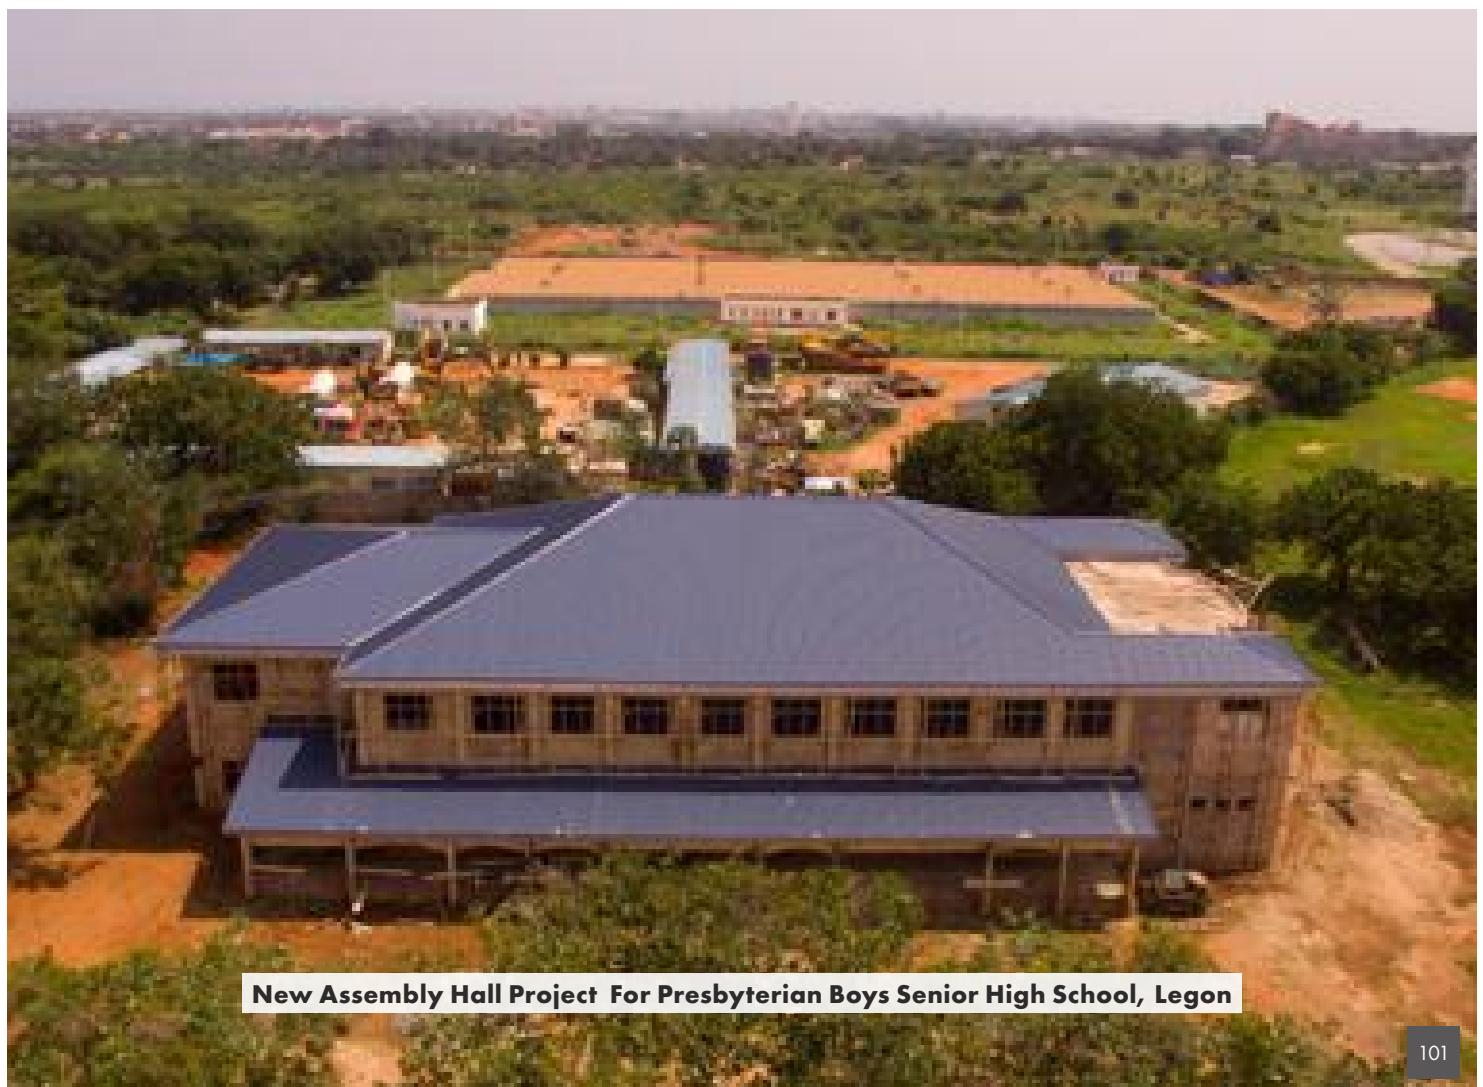

Expanding Capacity of Existing SHSs to Increase Access

The Ministry, with support from the Local Government (MMDAs) and other stakeholders continued with its ongoing programme to expand classrooms, dormitories and other facilities in existing secondary schools. Over 1000 classroom blocks, 180 dormitory blocks, 18 teacher's flats, 20 science laboratories and other academic and non-academic facilities have been completed for Senior High Schools across the country between 2013 and 2016.

In addition, under the World Bank's Secondary Education Improvement Project, facilities in 50 existing Senior High Schools have been upgraded.

Inauguration of Newly Constructed Tongor SHS

New Classroom Block at Dorfor SHS

New Dormitory Block at Tepa Senior High School

Construction of a 3-storey Classroom Block at Presbyterian Senior High School, Osu

New Dormitory Block at Aveyime SHS

Progressively Free Secondary Education

The Ministry commenced implementation of Progressively Free Secondary Education Programme to ultimately make secondary education free through gradual absorption of fees paid by students.

12 fee items amounting to GHS 162 per student per year was absorbed for 320,488 day students in the 2015/16 academic year. These fee items include Examination, Library, SRC dues, Entertainment, Science Development, Sports, Culture, Science and Maths Quiz, Co-Curricular activities, ICT, Development Levy and Utilities.

The programme has been expanded in the 2016/17 academic year to cover 120,000 boarding students. It is estimated that an amount of GHS 85,318,200.00 will be paid to support 458,700 students in the 2016/17 academic year. All day students, including those in all Community Day Schools are beneficiaries under the programme.

SEIP Scholarships

To further reduce cost burden on parents, Government under the Secondary Education Improvement Project (SEIP) is supporting 10,400 needy students, 60% of whom are females to complete a full cycle of secondary education.

The value of the scholarship is approximately GHS 6,000 per student for three years. So far, 5,643 students have received scholarships under the scheme.

SHS Subsidy

In 2013, Government increased the subsidy per student from GHS 64.35 to GHS 92.40 for general students, and GHS 65.85 to GHS 93.90 for technical students.

Science Resource Centres Project

The Ministry continued with the Science Resource Centres Project to cover 300 un-served schools. The beneficiary schools were provided with Science equipment, Science software, ICT, electronics items and chemicals. In addition, 1,200 Science teachers and laboratory technicians were trained in the effective use of the equipment during the 2015/2016 academic year.

Government also extended the project to establish science resource centres at University of Cape Coast and University of Education, Winneba. This is intended to help build the competencies of pre-service teachers to handle schools' science programme towards long term sustainability of the project.

Integration of ICT in Teaching and Learning

To further improve teaching and learning in secondary schools, Government has invested in measures to integrate ICT in teaching and learning. The initiatives include:

E-Transform / E-Learning

The Ministry is implementing E-transform to among others, improve the communication infrastructure in 200 Senior High Schools in Ghana. These beneficiary schools are receiving internet connectivity and being equipped with computer laboratories.

Similarly, E-learning project is being implemented to provide connectivity and other ICT hardware, software and SHS content to 230 Senior High Schools.

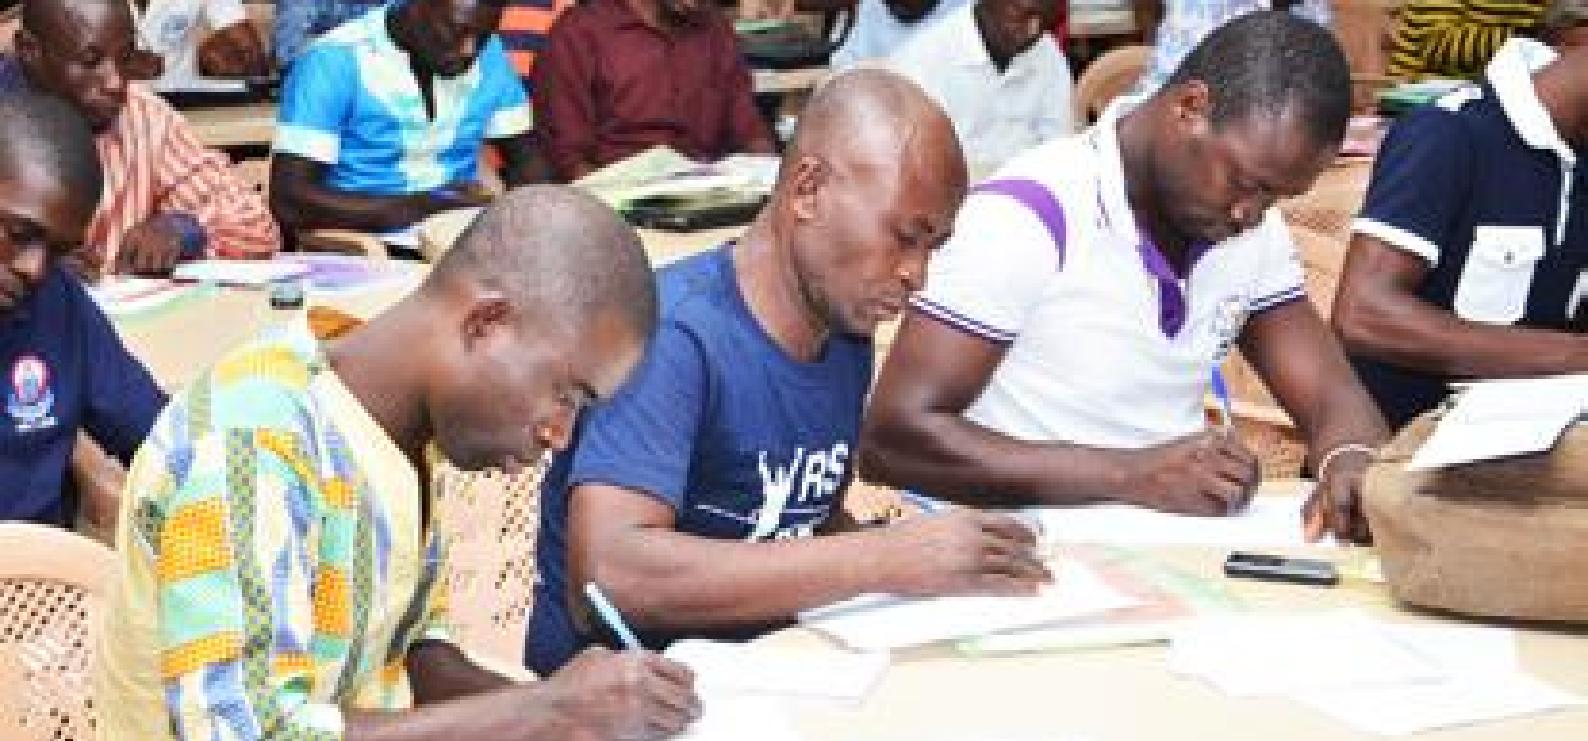

Altogether, 555 public SHSs are currently being supported with ICT infrastructure to improve quality under the outlined interventions.

In-service Training for Mathematics and Science Teachers

The Ministry has trained 1,997 Mathematics and Science teachers from 125 low performing schools under SEIP. The training covered topics and concepts in maths and science that have been perceived to be difficult. In addition, 100 teachers have been trained as master trainers to provide support to teachers. We will add other subjects while reviewing the modes of teaching same in our CoEs to make our teachers even more efficient.

Recruitment of Mathematics and Science Teachers

The Ministry has currently prioritized the teaching and learning of Mathematics and Science as a means to reverse the trend of poor performance in Mathematics and Science in the country. In this connection, 2,400 Maths and Science Teachers were recruited and deployed in 2016 to fill vacant places in public Senior High Schools.

Procurement of Core Textbooks

To further enhance teaching and learning as well as learning outcomes at the SHS level, Government has procured 3.6million core textbooks and 137,216 teachers guide for distribution to all public Senior High Schools. It is expected that the distribution of these textbooks will improve the student core textbook ratio.

Key Performance Indicators at Senior High School Level

The investment made to expand access and improve quality of teaching and learning resulted in an increase in the number of Senior High Schools from 670 in 2008/09 to 856 in 2015/16. Consequently, enrolment also increased from 490,334 to 851,312 in 2015/16.

The number of teachers engaged at the Senior High School level increased from 22,521 in 2008/09 to 40,547 in 2015/16 academic year.

The following key performance indicators were also

recorded within the period under review:

- Transition rate from JHS to SHS has increased from 51% in 2012 to 67% in 2016
- Completion rate at the SHS level has increased from 31% in 2012 to 46% in 2016
- WASSCE achievement of A1-C6 in six subjects increased from 20.2% in 2015 to 24% in 2016
- On core mathematics, proportion of students who score A1-C6 increased from 25% in 2015 to 32.8% in 2016.
- On integrated science, proportion of students who score A1-C6 increased from 23.2% in 2015 to 48.5% in 2016.

WASSCE Performance

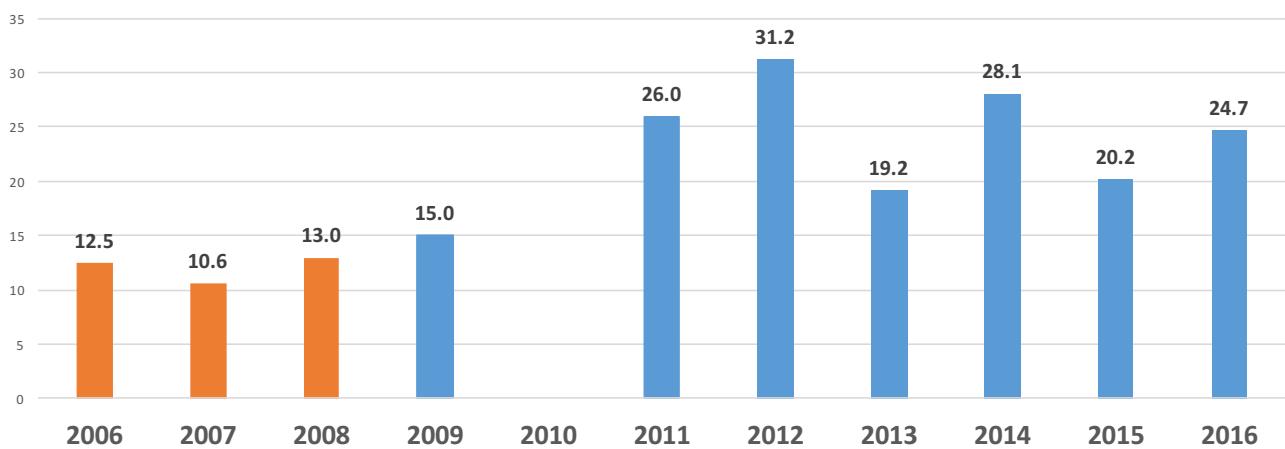

Over the last 4 years, Ghana has been adjudged the best performing country in WASSCE and has received the top 3 awards during the period.

In May/June 2015 WASSCE all the three prizes were won by students from Wesley Girls High School, Cape Coast.

Centre for National Distance Learning And Open Schooling (CENDLOS)

CORE FUNCTIONS

- Harmonize and regulate ODL in Ghana
- Package education & training for delivery through ODL, using ICT
- Support, coordinate and offer advice on ODL
- Operate OS system in Ghana
- Provide training in ODL delivery and assist institutions to go Dual mode

OPEN SCHOOLING

The Centre for National Distance Learning and Open Schooling (CENDLOS) was created with the aim of harmonising distance learning at all levels and boosting training in skills using open learning and distance education knowledge, resources and technologies. CENDLOS' aim is to plan and implement a structure that will ensure a sound Open and Distance Learning (ODL) environment as well as create opportunities in learning for skills among the youth and the citizenry at large in search of new or improved job placements.

As part of efforts to effectively harmonize distance learning activities, the Ministry of Education in consultation with the Public Service Commission has developed a draft Scheme of Service for CENDLOS.

The Center for National Distance Learning and Open Schooling in the last four years produced

- 12,453 folders of audio-visual lessons on video compact discs (VCDs) and distributed to 535 Senior High Schools.
- At the junior high school level, the production of 70 class lessons of Social Studies, 70 in Integrated Science, and 120 in Basic Design and Technology for JHS1 were deployed for the benefit of schools.
- 150 Audio-visual lessons have been produced for Senior high schools including development of an Interactive eLessons:

Over the period, a number of capacity development programs have been carried out to guarantee the sustainability of the e-learning platforms through training of:

- 36 teachers and IT engineers in eContent

development

- 350 Core subject teachers and 73 District ICT Coordinators as Master Trainers in the use of iCampusgh, iBox and eContent Development of eContent programs also showed significant progress over the 4-year period under review. The success include, production of eContent for SHS 1 English, Mathematics, Integrated Science and Social Studies; and eContent in three forms – namely:- (i) Learner Text (notes, video scripts, quizzes, questions and answers) is completed; (ii) Audio-visual lessons: 200 lessons produced; (iii) Interactive eLessons: Concept frameworks for production of 200 units of Interactive eLessons completed.

Over the four years, the Pilot Open School System enrolled over 1,000 learners in 13 study centres offering programmes in JHS, SHS and National Vocational Training Institutes (NVTIs). Fifty-two of these learners (specifically comprising prison inmates and out-of-school youth) registered for BECE, WASSCE and NVTI examinations. In 2014 there are 514 learners enrolled.

Further offering open resources for teachers and students in mainstream schools, CENDLOS developed a prototype eLearning platform for an online classroom, and also trained 17 TVET writers in e-content development.

SOME KEY ACHIEVEMENTS

- One (1) Polytechnic (Koforidua) and 16 Colleges of Education receive assistance in dual-mode delivery programme
- 35 teachers of English in JHS from four Regions (Central, Eastern, Greater Accra and Western) receive training in using Open Educational Resources (OER).
- Pilot Open School System: 615 learners are currently enrolled in thirteen (13) study centres offering programs in JHS, SHS and TVET
- Production of eContent for SHS 1 English, Mathematics, Integrated Science and Social Studies. eContent; 200 lessons completed
- 100 eContent in Building and Construction produced for pilot in SHS TVET.
- Development of Open Education Resources

(OER) Policy for Ghana: 1st Draft is ready.

- Progress on Key Initiatives, Programs, and Projects Implemented
- The current status of the implementation of the ICT component of the SEIP implementation Project in low performing schools is as follows:
 - iCampusgh project- development of eLearning Platform for online classroom for Senior High Schools.
 - Production and installation of sets of iBoxes with Interface in selected SHS – 160 sets of iBoxes with Interface representing ready for distribution
 - Production of eContent for SHS 1 English, Mathematics, Integrated Science and Social Studies:
 - Learner Text (notes, video scripts, quizzes, questions and answers) – 100% complete
 - Audio-visual lessons: 100% complete
 - Interactive eLessons: Concept frameworks for production of 180 units of Interactive eLessons is 100% complete
 - CENDLOS has deployed iCampusgh portal and installed iBoxes in about 80 low-performing Senior High Schools.

To further improve teaching and learning in secondary schools, CENDLOS has invested in programmes to integrate ICT in teaching and learning. The initiatives include:

• iBox / iCampus

The iBox, a unique offline version of an adjoining iCampusgh online platform has been developed locally. While the latter functions as a regular web, the former – the iBox – is able to support browsing via Wi-Fi and cable connections but without internet connectivity. The entire concept is the initiative of the Centre for National Distance Learning and Open Schooling (CENDLOS) and developed jointly with a team of local companies. The Ministry thus procured 160 iBoxes (an ICT package containing the lesson texts, video, interactive exercises, and interactive practical lessons and additional material) for distribution to 125 low performing senior high schools under the quality improvement component of the Secondary Education Improvement Project (SEIP).

President Mahama launching the iBox Initiative

TECHNICAL VOCATIONAL EDUCATION AND TRAINING

Under the Technical Vocational Education and Training (TVET), government committed to provide quality skills training to the youth by re-branding both formal and informal TVET programmes.

National Apprenticeship Programme (NAP)

The Ministry continued with implementation of the National Apprenticeship Programme (NAP) to provide skills to Ghanaian youth between the ages of 16-24.

Under NAP, beneficiary youth are attached to master craft persons to undergo apprenticeship. The trainees are also provided with the necessary tools and equipment to facilitate their training.

Notable achievements under the programme include:

- 5,000 JHS leavers trained in garment making, cosmetology, welding and fabrication, auto mechanics and electronics in 70 selected districts
- 3,500 master crafts persons trained in current industry trends, book keeping, customer service, ICT skills, health and safety standards as well as business ethics
- 10 TVET institutions and 3,500 apprentices benefited from GHS 3 million worth of various tools and equipment
- 300 TVET professionals were provided with specialized training in the Competency Based Training (CBT) delivery mode

Additionally, a project to develop institutional framework for regulating informal sector apprenticeship and skills upgrading in the informal sector is on-going with a grant amount of 10 million Euros.

Also, 25,000 TVET learners/workers and Master Craft persons are currently undergoing training.

A National Apprenticeship Programme
beneficiary learning garment making

SKILLS DEVELOPMENT FUND

The Government of Ghana in 2011 initiated the Skills Development Fund (SDF) to address the critical skills and technology needs of business enterprises operating in both the formal and informal sectors of the economy. A summary of the key results and projects of SDF is as follows:

- US\$ 50 million worth of grants approved
- 646 Grants awarded to businesses across the 10 regions of Ghana
- US\$ 38.4 million worth of grants so far disbursed to 646 businesses
- 43,485 businesses supported by SDF
- 93,446 employees/members of Trade Associations and Farmer Based Groups trained across all sectors of the economy of Ghana
- 523 New technologies developed for uptake by the private sector
- 105 New training courses developed
- 70.4% Increase in productivity of employees trained
- 12 Technology Centers supported to develop innovative technology for industry
- GHS 300 million worth of labour productivity gains were achieved through SDF support to beneficiary firms.
- 13,300 Direct additional jobs created by SDF-supported firms.

Government through the SDF supported Dignity Garments Ltd., to train 420 staff in advanced commercial garment making techniques. Consequently, a line of 28 staff now produce an average of 80 Polo shirts an hour instead of the previous 54. Productivity levels have increased by 42% enabling the company to produce and export 60,000 T shirts and Polo shirts a week to the USA. The increase in revenue has culminated in the recruitment of 1,000 additional staff out of which 75% are women.

Government has funded a Solar PV installation and training facility at the Ghana Technology University College (GTUC). Over 1,000 electricians have so far been trained in the installation and maintenance of solar systems.

A PETAG member from Elmina at workshop

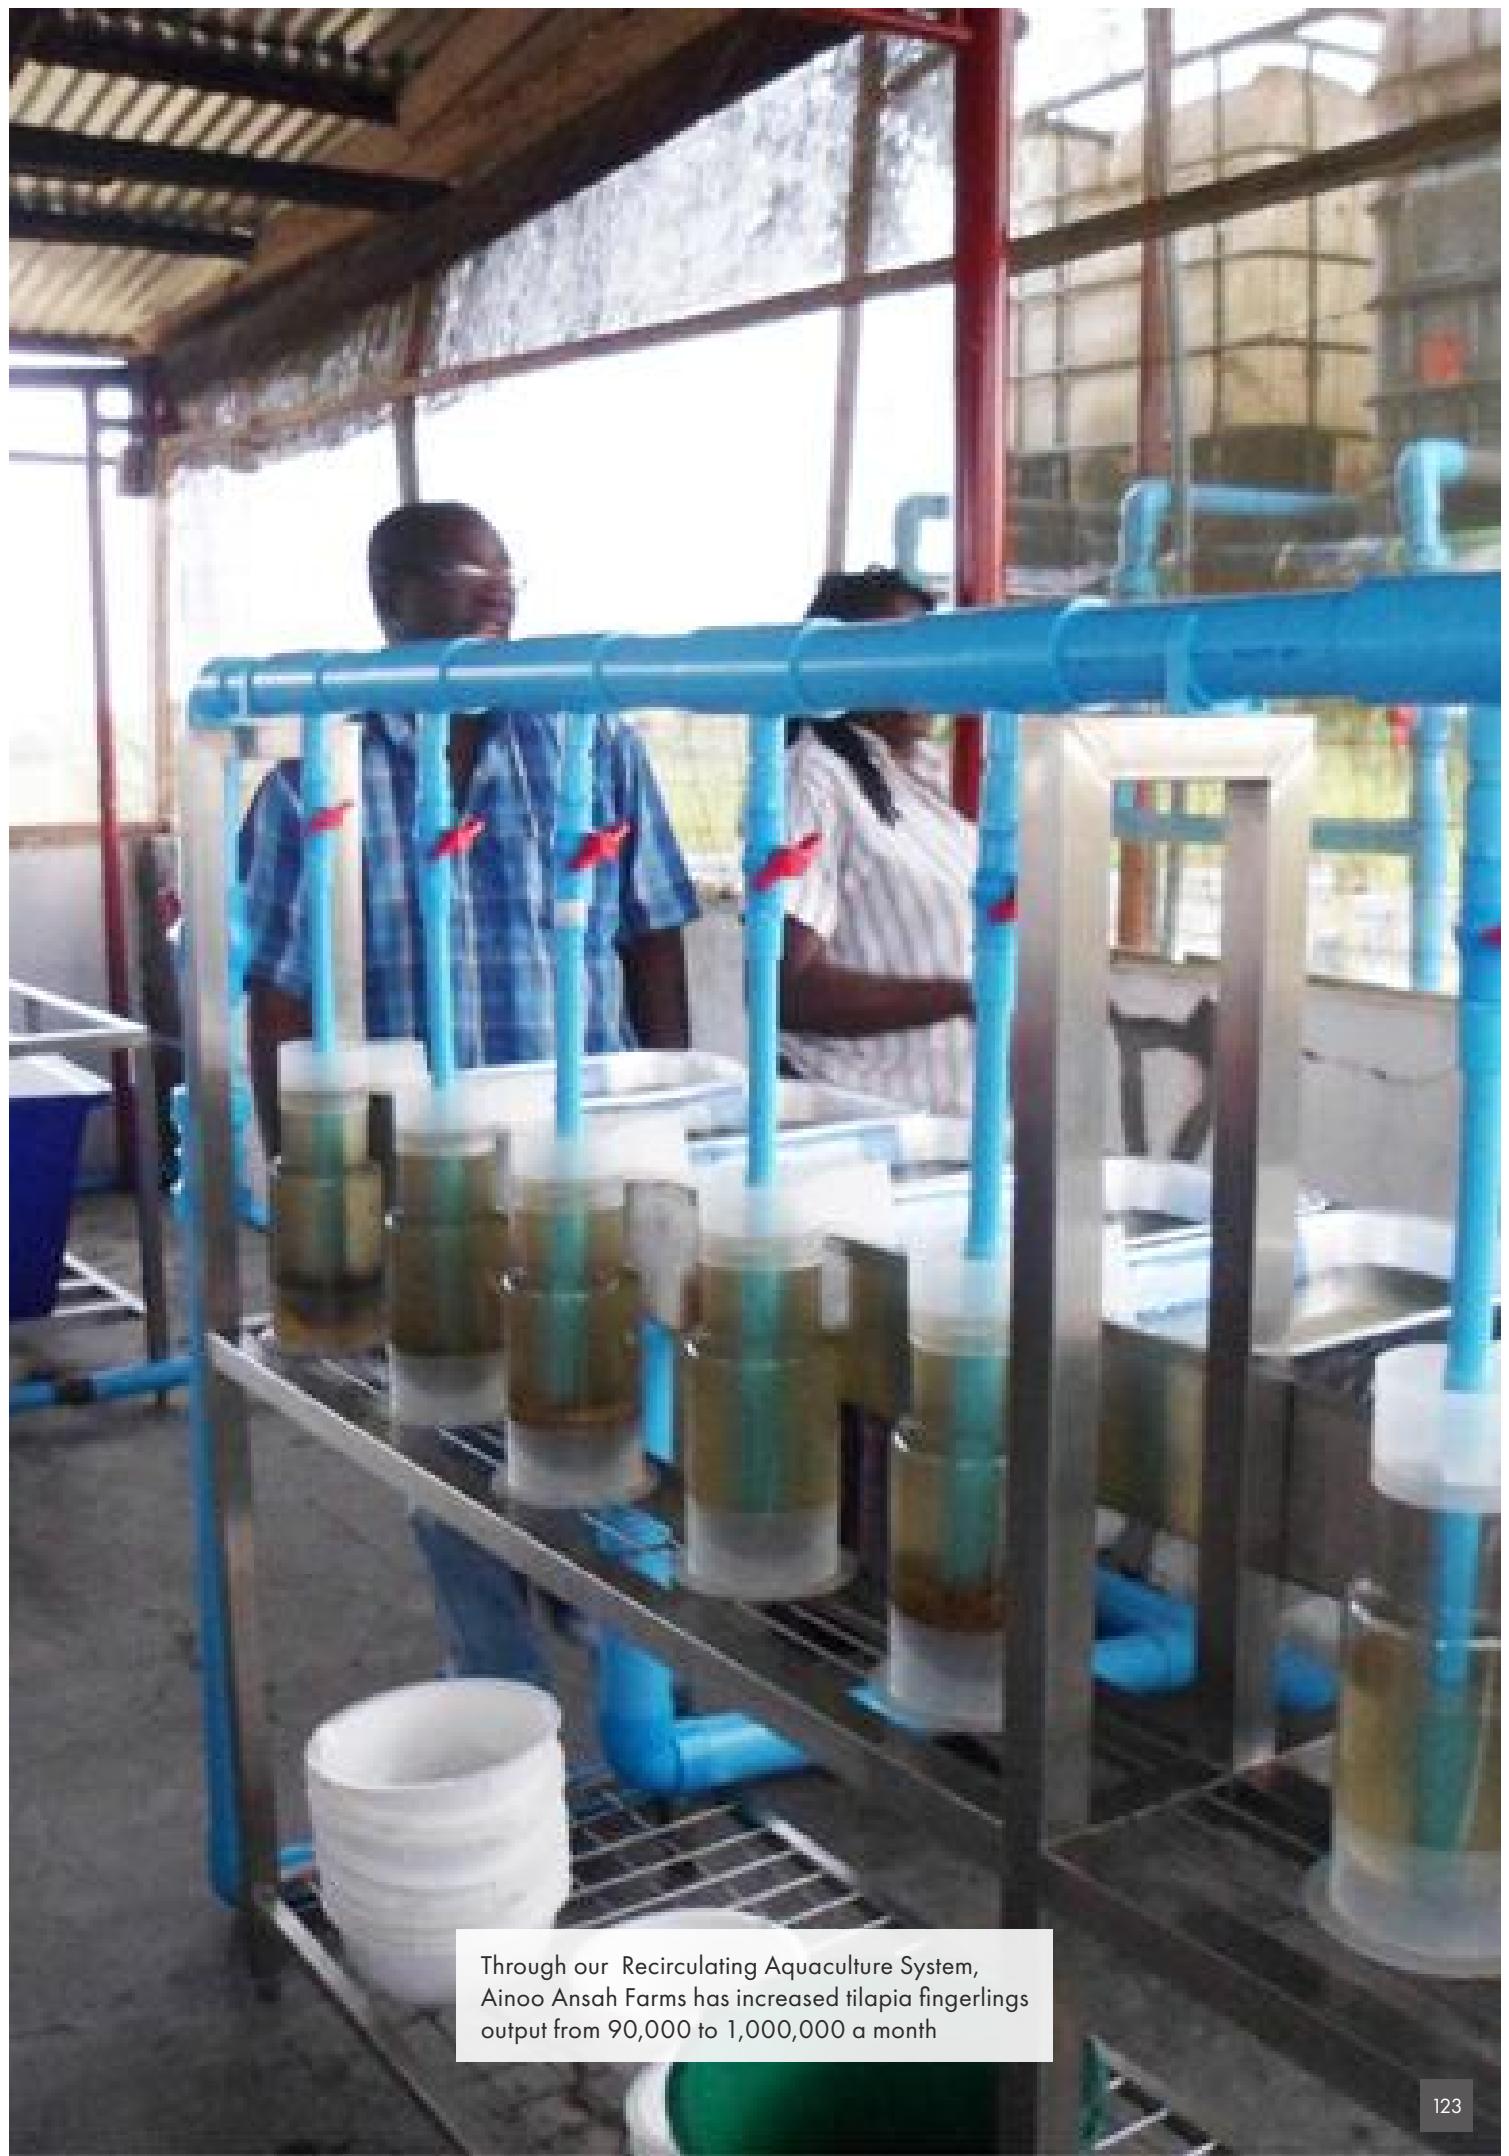

SDF's funding to the Progressive Electronics Technicians Association of Ghana (PETAG) and the Ghana Electrical Servicing Technicians Association (GESTA) enabled 1,137 members nationwide to acquire skills in the servicing of LCD/LED equipment, Tablets and related gadgets increasing and diversifying their productivity.

Some PETAG members at school

Some GRIB members practice the SRI technology

SDF has supported the Ghana Rice Inter professional Body (GRIB) with a grant of GHC 100, 854.00 to train hundreds of small holder member farmers in a new technology called System of Rice Intensification (SRI) technology, which is proven to increase output and suitable for small holder farmers. This has increased productivity from 2.4 metric tonnes per hectare to 6 metric tonnes per hectare.

Through our Recirculating Aquaculture System, Ainoor Ansah Farms has increased tilapia fingerlings output from 90,000 to 1,000,000 a month

Through the SDF, the Government of Ghana has supported 7,181 farmers to upgrade their agronomic skills and acquire innovative technology to increase productivity. Among the beneficiaries is the Gold Coast Fruits Ltd, a pineapple firm which was able to increase its output of MD2 pineapples from 20 to 60 tonnes per hectare after SDF funded training in MD2 pineapple cultivation.

An SDF supported bamboo bicycle production factory in Kumasi.

SDF provided a grant of GHS 167,818.00 to the Centre for Development Partnerships, to support its overall goal of providing Bamboo Craft Skill Based training over an 8 month period. CDP successfully trained over 300 youth to upgrade their skills in the bamboo cottage enterprise.

An SDF funded soya processing facility

Minister presents grant award to Primepak Ltd, a palm cannery firm

Government, through the Skills Development Fund (SDF) has awarded a total of US\$ 50 million to 646 formal and informal businesses, Trade Associations and Training Institutions for various skills development and technology acquisition interventions, leading to a 70.4 % increase in productivity.

Dep. Minister presents grant award to Flosell Ltd, a tilapia production firm

**DEVELOPMENT
OF SKILLS FOR
INDUSTRY
PROJECT**

DEVELOPMENT OF SKILLS FOR INDUSTRY PROJECT

The Development of Skills for Industry Project (DSIP) is designed to reinforce Government of Ghana's efforts in implementing the reform of Technical and Vocational Education and Training (TVET). The five year ongoing project aims to support the development of high quality middle level technical and vocational skills needed in the Ghanaian economy. Below are some of the key accomplishments of DSIP:

1. Under DSIP, Government has awarded bursary scholarships to 1,520 students in Polytechnics and Technical Institutes who are pursuing science related courses. Among the beneficiaries are 333 females.
2. Under the DSIP, Government has awarded bursary scholarships to 2,000 apprentices in the informal sector, out of which 726 are females.
3. As part of Government's strategy to rebrand Technical Vocational Education and Training (TVET), over 800 Master Craftspersons have been trained in Competency Based Training (CBT) methods of instruction.
4. To enhance the quality of teaching in TVET institutions, Government has sponsored the training of 148 instructors at the Diploma level, 20 instructors at the Masters level and 5 faculty members at the PhD level.
5. Under the National Apprenticeship Programme, over 5,000 Junior High School leavers have received training in garment making, cosmetology, welding and fabrication, auto mechanics and electronics in 70 selected districts.

Artist's impression of the DSIP funded lecture theatres
Currently under construction

With the support of the African Development Bank, Government is constructing modern school infrastructure in 13 Technical and Vocational Institutes and an office complex for COTVET. The facilities include workshops, dormitories, staff accommodation, administration blocks and lecture theatres.

The schools are:

- Ada Technical Institute (Greater Accra Region)
- Akwatisia Technical Institute (Eastern Region)
- Amankwakrom Technical Institute (Eastern Region)

- Asuansi Technical Institute (Central Region),
- Bolga Technical Institute (Upper East Region)
- Kpando Technical Institute (Volta Region)
- Nkoranza Technical Institute (Brong Ahafo Region)
- Dabokpa Technical Institute (Northern Region)
- Wa Technical Institute (Upper West Region)
- Krobo Asante Technical Institute (Ashanti Region)
- Takoradi Polytechnic (Western Region)
- Accra Polytechnic (Greater Accra Region)
- College of Technology Education, Kumasi (Ashanti Region)

Artist's impression of the DSIP funded dormitory blocks.
Currently under construction

Artist's impression of the DSIP funded administration blocks. Currently under construction

Below are the detailed infrastructure projects currently taking place in all ten regions under DSIP:

Accra Polytechnic (Greater Accra Region)

- Building Construction Workshop
- Electrical/Electronic Workshop
- Automobile Workshop
- Carpentry And Joinery Workshop
- External Works, Services and Drainage

Takoradi Polytechnic (Western Region)

- 3 - Storey Lecture Theatre
- 3 - Storey, 6 Flat, 2-Bedroom Apartment for Teachers Accommodation
- 2 - Storey Library and ICT
- Welding and Fabrication Workshop
- Electrical and Plumbing Workshop
- External Works, Services and Drainage

Kumasi College Of Technology (Ashanti Region)

- Electrical & Plumbing Workshop
- Mechanical & Automobile Workshop
- Carpentry & Joinery Workshop
- 2-Storey Catering, Fashion & Design Workshop
- 2- Storey Library & ICT Block
- External Works, Services and Drainage

Akwatia Technical Institute(Eastern Region)

- Automobile & Welding Workshop
- Building Construction Workshop
- and Carpentry and Joinery Workshop
- Electrical and Plumbing Workshop
- Administration Block
- 2 Bedroom Semi-Detached Teachers Accommodation

Amankwakrom Technical Institute (Eastern Region)

- Agric Mechanization and Electrical Workshop
- Dining Hall & Kitchen Block
- 6-Unit Dormitory Block (Boys)
- 6-Unit Dormitory Block (Girls)
- 2-Storey Administration Block With ICT, Library and Sick Bay Facilities
- Rehabilitation of existing Workshop
- Main School Entrance & Gatehouse

Kpando Technical Institute (Volta Region)

- 12-Unit Classroom Block

- 2 Storey 12 Unit Dormitory Block
- 2 Storey Catering and Fashion Design Block
- Agric Mechanization and Electrical Workshop

Ada Technical Institute (Greater Accra Region)

- Construction of Access Road
- 2-Storey 12-Unit Dormitory Block
- 6-Unit Dormitory Block
- Dining Hall and Kitchen Block
- Fashion and Design Workshop
- Administration Block
- 3 Bedroom Teachers' Accommodation
- 2 Bedroom Teachers' Accommodation

Asuansi Technical Institute (Central Region)

- 2-Storey Library And ICT Block
- Dining Hall and Kitchen Block
- 2-Storey Administration Block with Sick Bay
- 3-Storey, 6 Flat, 2-Bedroom Apartment for Teachers' Accommodation
- Principal's Bungalow
- Main School Entrance
- Access Road and Culvert
- Sports Fields
- External Works, Services and Drainage

Krobea Asante Technical Institute (Ashanti Region)

- Automobile and Welding Workshop
- Carpentry Workshop, Building and Construction Workshop
- 2-Stotrey Catering, Fashion and Design Block
- Dining Hall and Kitchen Block
- 2- Storey Administration Block With ICT, Library and Sick Bay Facilities
- 3-Storey, 6 Flat, 2-Bedroom Apartment for Teachers' Accommodation
- Principal's Bungalow
- Main School Entrance & Gatehouse
- External Works, Services and Drainage

Nkoranza Technical Institute (Brong Ahafo Region)

- 2-Storey Catering, Fashion and Design Block
- Single Storey Agric Mechanization and Welding Workshop
- 3-Bedroom Semi-Detached for Teachers' Accommodation

- Fence Wall, Gate House And Internal Road Network
- 2-Storey Library and ICT with Ancillary Facilities

Dabokpa Technical Institute (Northern Region)

- 2-Storey Administration Block
- Single Storey 6-Unit Classroom Block
- 2-Storey 12-Unit Dormitory Block
- Dinning Hall and Kitchen
- 2-Storey 12-Unit Classroom Block
- Fence Wall and Gate House
- 2-Storey, 3-Bedroom Semi-Detached Teachers' Accommodation
- 3-Bedroom Bungalow For Principal
- Rehabilitation of 3 existing Workshops

Wa Technical Institute (Upper West Region)

- 2-Storey Administration Block with Library
- Single Storey 3-Bedroom Semi-Detached Teachers' Accommodation
- Dining Hall and Kitchen
- 3-Bedroom Bungalow for Principal
- 2-Storey 12 Unit Dormitory Block

- Fence Wall, Gate House and Internal Road Network

Bolgatanga Technical Institute (Upper East Region)

- Rehabilitation of 4-Storey Boys' Dormitory Block
- Rehabilitation of Dining Hall and Kitchen
- Rehabilitation of Assembly Hall
- Conversion of existing Administration Block into Fashion and Design Theatre
- Welding, Painting and Decoration Workshop
- Fence Wall and Gate House
- 2-Storey Dormitory Block
- 2-Storey, 3-Bedroom Semi-Detached Teachers' Accommodation
- Campus road network and street lights

TERTIARY EDUCATION

Government through the Ministry of Education has demonstrated its commitment towards higher education in Ghana through the implementation of the following measures:

Upgrading of Colleges of Education to Tertiary institutions.

Expansion of access in Colleges of Education.

Conversion of Polytechnics to Technical Universities.

Expansion of both residential and academic facilities in Universities and other Tertiary Institutions.

Establishment of public universities in regions where they do not exist.

Capacity building for Faculty members.

Augmenting operations of Medical Schools.

Encouraging Private Sector Participation

Office Complex and Auditorium of Ghana Academy of Arts and Sciences

This is the office complex of the Ghana Academy of Arts and Sciences. The state of the art facility, started in October 2010, and will serve as the Headquarters of the Academy. The facility comprises main offices accommodation, guest rooms and a 650 seater auditorium which has been completed and where the Academy holds its lectures since June 2015.

Office Complex and Residential Facility for Association of African Universities

In fulfilment of its pledge to provide a permanent Secretariat for the Association of African Universities, the Government of Ghana has constructed an ultra-modern three-storey building for the Association. This facility which is almost 100% complete, features key facilities such as:

- A Secretary-General's Office • 7 Directorates • Library Facilities
- Meeting Rooms • 50-Seater Conference Rooms • Three offices for Visiting Scholars
- Document Reproduction Room • General Facilities and access for the Physically-challenged
- Provision for Solar Panels • Well landscaped areas

Colleges of Education

Policy Reforms

Government has over the past four years taken steps to upgrade the Colleges of Education into tertiary institutions with the passage of the Colleges of Education Act 2012, Act 847. Government has improved the supply of teachers at the basic level by expanding access to Colleges of Education through the following:

- Abolishing the Admission Quota System
- Migration of Colleges of Education
- Establishment of new Colleges of Education in the medium term.
- Expansion and upgrading of facilities in all Colleges of Education.

Migration of Colleges of Education

The Ministry in collaboration with the National Council for Tertiary Education has developed a harmonized Scheme of Service and Conditions of Service for staff after the passage of the Colleges of Education Act 2012 (Act 847) for the transition of COEs to Tertiary Status. Following the attainment of tertiary status by thirty-eight (38) public Colleges of Education, the Ministry of Finance has approved the migration onto the Colleges of Education Payroll.

By this approval, salaries, retention premium, critical support allowances and conversion difference are to be paid to eligible staff.

The Ministry has reconstituted the Governing Councils of all 38 Colleges of Education and key management members have been trained to build their capacity for their new role.

Absorption of Private Colleges of Education

In order to improve teacher supply to basic schools, Government has absorbed five existing private Colleges of Education as public Colleges of Education. These Colleges are:

- St. Ambrose College of Education, Dormaa Akwamu in the Brong Ahafo Region
- Al-Faruq Islamic College of Education, Wenchi in the Brong Ahafo Region
- Gambaga College of Education, East Mamprusi District in the Northern Region
- St. Vincent College of Education, Yendi Municipality (Gamazi) in the Northern Region
- Bia Lamplighter College of Education in the Western Region

Existing infrastructure in the absorbed

colleges will be upgraded.

Upgrade of Facilities in CoEs

Government has expanded and upgraded facilities in all the existing 38 Colleges of Education.

Removal of Admission Quotas in CoEs

In our resolve to increase admissions of teacher trainees into Colleges of Education, create jobs for the youth and reverse the trend of high percentages of untrained teachers in the GES, government implemented a number of interventions notable amongst them being the removal of the admission quota system occasioned by the payment of allowances and replacing same with student's loan.

The removal of the admission quota system resulted in an increase in admissions from 9,000 in 2012 to 15,400 in 2013.

Conversion of Polytechnics to Technical Universities

The President, His Excellency, John Dramani Mahama in his 2013 State of the Nation Address announced the programme for the conversion of Polytechnics into Technical Universities. This is to help reposition the polytechnics as strategic institutions to train high level technical skills in the Technical Vocational Education and Training (TVET) areas for the country's economic and national development agenda.

In this regard, the Ministry, in September 2013 set up an eight-member Technical Committee to among other things develop a road map for implementing the policy.

The Technical University Act, 2016 (Act 992) has been enacted by Parliament to pave way for the conversion of the first phase of six (6) polytechnics namely, Accra, Kumasi, Takoradi, Ho, Sunyani and Koforidua Polytechnics to technical universities from September, 2016.

The Ministry has also received the report of the expert review panel on the re-assessment of Cape Coast and Tamale Polytechnics to be considered for conversion to technical universities. Consequently, an executive approval has been given to upgrade the Cape

Coast and Tamale Polytechnics to technical universities bringing the total number of new Technical Universities to eight (8). Government will assist the remaining two(2) polytechnics through re-tooling of their laboratories, provision of infrastructure and the running of accredited Bachelor of Technology (B.Tech) programmes to merit their conversion to technical universities.

Upgrading of Facilities in Polytechnics

In line with the conversion process, government initiated a number of infrastructure projects to expand and upgrade facilities at the various Polytechnics. These include:

- Construction of an 8-storey ICT/Library complex and completion of four Engineering Blocks, each including workshops, laboratories, classrooms, lecture theatres, offices, under the Government's Skills Development initiative project in Accra Technical University;
- Refurbishment of the Engineering Block with 500 sets of furniture for the machine shop at the Tamale Technical University;
- Construction of Ultra-Modern Hotel, Catering and Information

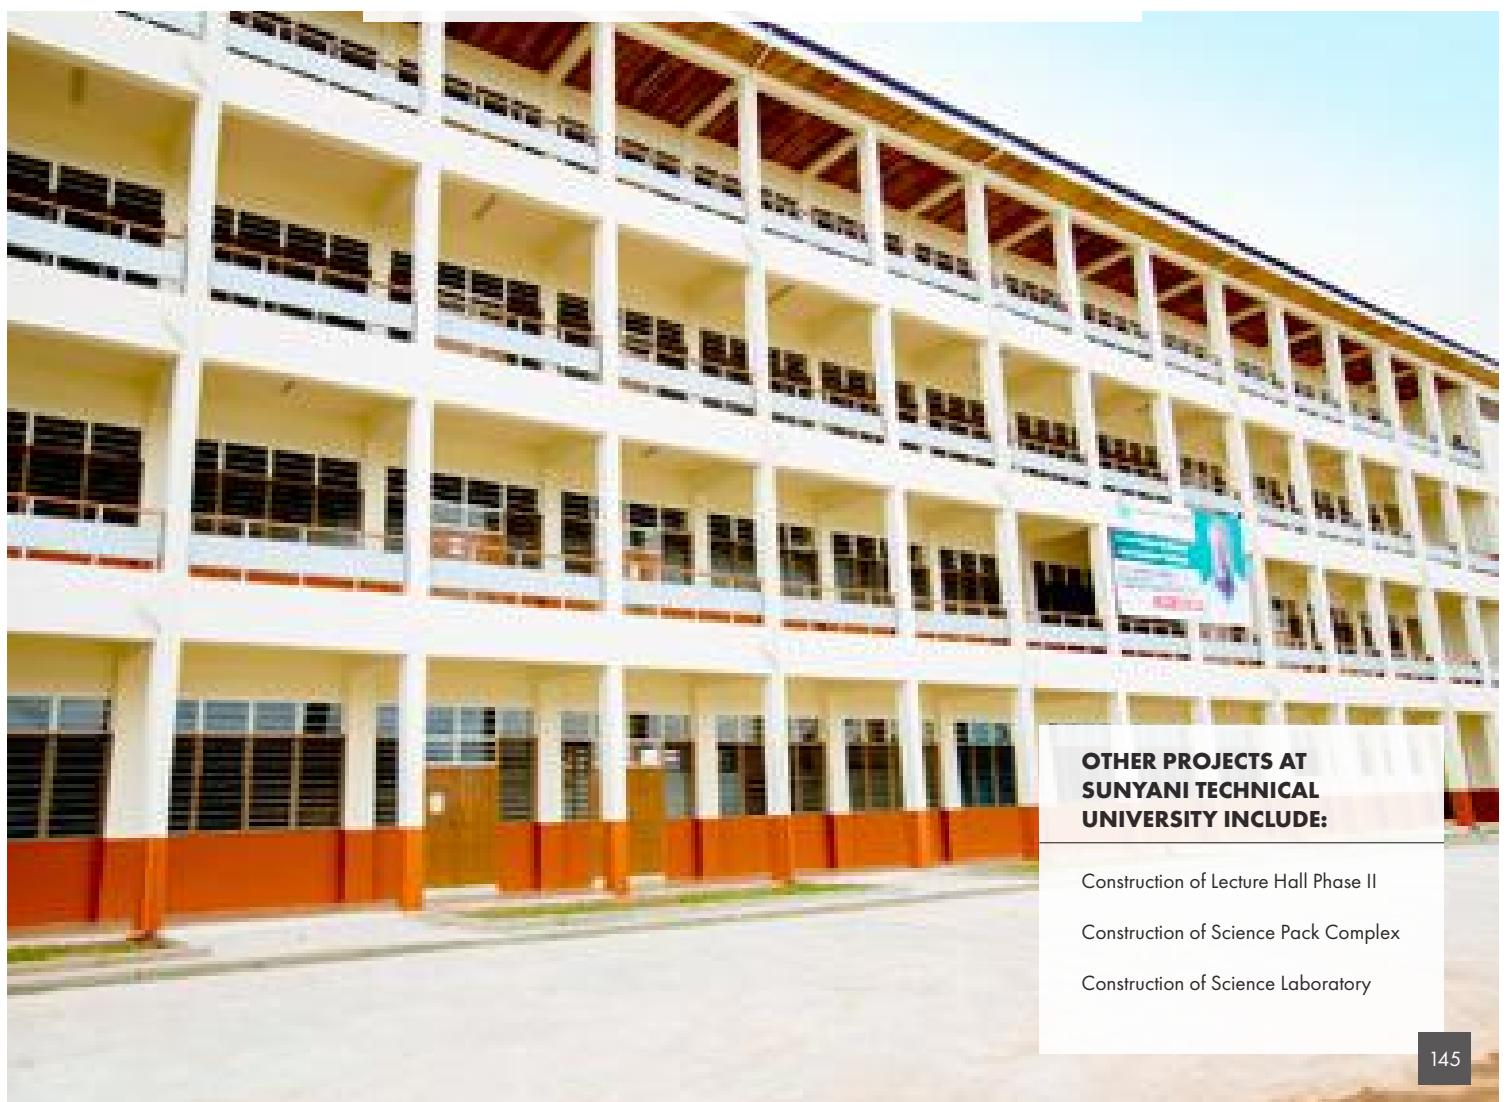

Management Block as well as 3-storey lecture hall (G-Block) at the Sunyani Technical University.

- Installation of new mechanical engineering equipment at the engineering laboratory and the construction of 5-storey school of engineering block at the Koforidua Technical University. A 4-storey classroom and office block has also been completed.
- Construction of 4-storey students hostel is currently on-going at the Bolgatanga Polytechnic.
- Cape Coast Technical University has also seen the construction of four 8-unit Blocks of flats for staff.
- Mechanical, electronic and electric learning systems have been installed at Kumasi, Ho and Takoradi Technical Universities. Installation of similar equipment is currently on-going at Koforidua and Tamale Technical Universities. The next phase of installations will cover Cape Coast and Sunyani Technical Universities and Bolgatanga and Wa polytechnics.

The installations include Renewable energy, automation and mechatronics, process control, Machining, Fluid Power and Mechanical and process Control Learning Systems.

Construction of Ultra-Modern Hotel, Catering and Institution Management (HCIM) Block at Sunyani Technical University

**OTHER PROJECTS AT
SUNYANI TECHNICAL
UNIVERSITY INCLUDE:**

- Construction of Lecture Hall Phase II
- Construction of Science Pack Complex
- Construction of Science Laboratory

Engineering Block Complex At Koforidua Technical University

ESTABLISHMENT OF THREE NEW PUBLIC UNIVERSITIES

University of Health and Allied Science

Towards the realisation of the NDC Government's vision of ensuring that every region of Ghana without a public university is provided with at least one public university, the University of Health and Allied Sciences has been established in the Volta Region and duly inaugurated by President John Dramani Mahama.

The construction of the School of Basic and Biomedical Sciences at Sokode-Lokoe in the Ho Municipality, the first of the eight (8) schools and two (2) institutes expected to form the total infrastructural facilities of the University Of Health And Allied Sciences has been completed. The University started with 154 students and currently has a population of 3,010. The first batch of students trained by the University have successfully graduated.

The following projects have also been completed and handed over:

- 10 new Lecture Halls
- Laboratory complex block
- 6 classrooms converted to accommodation for lecturers
- Completion of outstanding works at the Nurses Training School
- Rehabilitation of Vice Chancellor's lodge
- Rehabilitation of Onchocerciasis Centre Building for the School of Public Health in Hohoe

Aerial view of the University of Health and Allied Science Campus

University of Energy and Natural Resources

The University of Energy and Natural Resources was established by Act 830 with the mandate to generate, advance and apply knowledge in energy and natural resource sciences. UNER which is situated in Sunyani in the Brong Ahafo Region was set up in fulfillment of the government's vision to provide a public University in each region of Ghana.

UNER started operation in September, 2012 and admitted 154 students. Enrolment currently stands at 3,100.

The following projects are currently ongoing at the University for Energy and Natural Resources (UENR):

- 2-storey library and ICT laboratory complex building
- 2-storey classroom block with offices (Roofing Stage)
- Work has also started on the Dormaa Campus of the University of Energy and Natural Resources

University Of Environment And Sustainable Development

Government pledged to establish a new public University in the Eastern Region to complete its vision of providing a public University in every Region of the country and also to expand academic and residential facilities on existing campuses. The Presidential Taskforce put in place to develop a roadmap for the establishment of the University of Environment and Sustainable Development in the Eastern Region has secured land in Somanya and Donkorkrom for the siting of the University. Stakeholders forum was held to review the draft report covering the academic/curricula development, governance and administration, for onward presentation to His Excellency The President. The Bill for the University has been passed into Law by Parliament and Government has secured funding to start construction.

The University is expected to feature general and specialized degrees in order to fill the gaps and ensure the completeness of training for environmental and sustainable development professionals in Ghana. These include degree programmes and research in climate change, water resources development, energy sustainability, energy economics and policy, urban architecture, natural resources and environmental economics, environmental policy and environmental science.

UPGRADE ACADEMIC AND RESIDENTIAL FACILITIES IN PUBLIC UNIVERSITIES

Government continues to assist the existing public universities to enhance their infrastructure to expand access and also to promote effective teaching and learning. In this regard, academic and residential facilities were provided to public universities over the period under review.

Kwame Nkrumah University of Science & Technology

Projects in the Kwame Nkrumah University of Science and Technology during the period under review include:

- Completion of a 5-Storey Faculty of Pharmacy and Pharmaceutical Sciences
- Completion of a 4-Storey College of Agriculture and Natural Resources
- Construction of Int. Rural Arts/Cultural Studies Building
- Construction of 4-Storey Examination Halls & Lecturers' Office
- Construction of School of Veterinary Medicine Building Complex

OTHER PROJECTS AT KNUST INCLUDE

J.E.A Mills Research Library

The John Evans Atta Mills Presidential Library, sited close to the Cape Coast Castle is the first Presidential Library in Ghana, built as a worthy edifice befitting the memory of a President who served his country well. The Library has, among other spaces, an auditorium for public lectures, seminar rooms for syndicate discussions, and a beautiful pergola for functions. The nature-themed surroundings fit into a historical ambience that reminds all Africans, both on the continent and in the diaspora, of our heritage. Unique to this Library is the virtual sound room that echoes the voice of Professor Atta Mills in his memorable speeches and images that bring to life his sojourn on this land as a celebrated academic, a keen sportsman, a humble politician, a devout Christian, a servant-leader, a President and a peace-loving Ghanaian.

LIBRARY PROJECTS

Achievements of the Ghana Library Authority

Government through the Ghana Library Authority chalked the following achievements during the period under review.

Refurbishment of Sections of the Accra Central Library

Huawei Technology(Ghana) Ltd. has refurbished the ICT Centre, Lending, Reference and Children's Libraries as well as the Exhibition Hall at a total cost of Nine Hundred Thousand Ghana Cedis(Gh 900,000.00) at the Accra Central Library as part of the company's Corporate Social Responsibility.

Mobile Library Activities

The Regional Libraries have been providing mobile library service to communities without static libraries. Currently, the service is being provided in 45 communities across the country.

Regional Library Projects

The Wa Library was completed and inaugurated by His Excellency the President on 7th July 2016.

- Sunyani and Ho Libraries: The Ghana Library Authority has on-going library building projects in the Brong Ahafo and Volta regions which have reached various stages of completion. The Brong Ahafo Project is about 63% complete and the Ho Project is about 80% complete.
- Renovation Works: The Sekondi Library has been renovated. Sections of the Head office block of the Ghana Library Authority and the George Padmore Research Library have been renovated
- Acquisition of Library Books: A total of 132,031 books of various titles have been acquired to stock the libraries.
- Acquisition of Office Equipment : Various quantities of computers, printers, office furniture and split airconditioners have been purchased to enhance work at the Head Office and libraries.

Collaboration and Innovation Programmes

- Library Connectivity Project

The project is collaboration between Ghana Library Authority and Ghana Investment Fund for Electronic Communications (GIFEC). This project is aimed at ensuring that Ghana Library Authority provides internet facility in all public libraries across the country for the use of clientele. 9 regional libraries, 34 district/branch libraries and 10 mobile libraries have been connected to the Internet.

- Mobile Library Hands-on computer classes for 1,800 Ghanaian Children Project.

Ghana Library Authority has secured sponsorship from Nokia/Global Giving through the Electronic Information for Libraries (EIFL) to provide ICT training for 1,800 pupils in schools in remote areas that do not have computers for their practical work in 4 selected regions including the Ashanti, Upper East, Volta and Western regions.

Upper West Regional Library Project, Wa

Children And Mobile Library Under Construction

The Ghana Library Authority has secured sponsorship from SSNIT for the construction of an ultra-modern building that will house the National Children and Mobile Library and other facilities. The Hon. Minister of Education, Prof. Naana Jane Opoku-Agyeman, cut the sod for the official commencement of the construction work on 15th July 2016.

The proposed Children and Mobile Library facility which is under construction, is a Two Storey Children's Library designed to meet all the modern functions of a library, for various age groups of children, in which the component facilities within the library would also offer support services to other libraries and schools nationwide.

It is located at 26A Patrice Lumumba Road, Accra and close to Gold House at the intersection between Kanda Highway and Obasanjo Way. This project is aimed at supporting Ghana Library Authority's quest to promote its mandate in relation to children by providing a children's library as a means of expanding the Greater Accra children's library which is currently not spacious enough for the number of children who patronize it. Construction work commenced on 23rd June 2016 and it is scheduled to be completed by 23rd May 2017.

The library has various sections which include the following;

Administration, Early Childhood Development section, Children's Section, Teens Section, Audio-Visual Rooms, Computer Laboratory (E-Learning Centre), Parents' Room, Community Activity Room (Multipurpose Hall), Conference Room, Sick Bay, Cafeteria, Indoor Playground, Washrooms and Vehicular Parking Spaces for Mobile Library Vans and Public Parking Slots

This edifice will serve as a model library, where training can be offered to libraries and schools. The facility will enhance children's general education as well as in modern digital technology.

It will also serve as a constant provider of information, education, safe and secured playground for children and as a venue for community activities and conferences. The project is funded by the Social Security and National Insurance Trust (SSNIT).

Student Loan Scheme

Upward Review of Loan Amounts

In line with our quest to make the Student Loan amount more realistic to cost, the Board has approved the upward revision of the Students loan Amount from between GHS 650 - GHS 1600 over two semesters to GHS 1000 - GHS 2000 beginning from the 2016/17 academic year.

Students Loan Plus

The Students Loan Plus (SL-Plus) has been designed to cater for students who gain admission to tertiary institutions but are financially handicapped even in raising the initial, time bound registration fees. The SL-Plus is an extension of the qualification period for a regular student loan to include the Tertiary Admission Phase.

Deprived Senior High School Engagement

It is an advocacy programme that targets Deprived SHS Students (final year students in particular) and parents/guardians in deprived schools to communicate the availability of financial support for tertiary education, to enable many more eligible Ghanaians pursue tertiary education

Student Loan Trust Fund engages Students at the Secondary level

SLTF receives Citation from NUGS

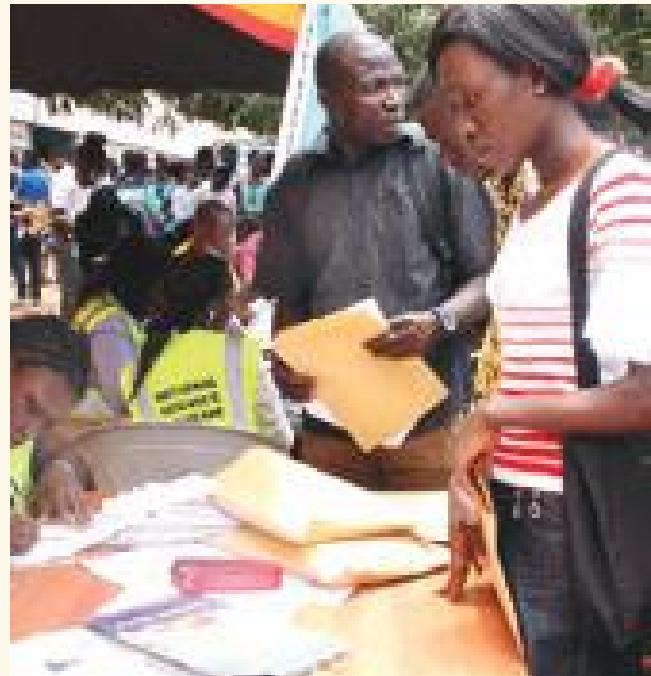

Launch of Zakat & Sadaqa Partnership for Disbursement and Recovery.

THE NATIONAL SERVICE SCHEME

Achievements of NSS from 2012 to Date

With the objective of improving service delivery, the scheme has made significant strides in ameliorating some of these challenges policies reforms under the caption “Rebranding the National Service Scheme”. This has basically involved the introduction two additional modules/fields of service, establishment of Cal centers, provision of cash till machines and the installation of CCTV cameras, expansion and refurbishment of the reception and client service unit of the scheme, purchases of new vehicles for monitoring and a few other initiatives.

Reduce the National Service Personnel Payroll

In line with meeting one of government’s major policy goal of reducing the Public sector wage bill, the National Service Scheme has from 2014 / 15 service year till now successfully saved about 147 million Ghana cedis in terms of service allowances by taking out a total of about 35,000 service personnel from the payroll with the operation of the E-Zwich platform.

The Relentless War On Corruption

In pursuit of the Scheme’s war against corruption the Bureau for National Investigation (BNI) has in line with the recent scandal interrogated staff of the Scheme who was affected. At the beginning of the 2014/15 service year, the Board asked some of the senior Management staff of the Scheme to step aside to enable the investigations to proceed without interference. Given that over 170 of the staff were implicated in the ghost name scandal, the smooth operation of the Scheme was almost brought down to its knees. To avert the possibility of administrative paralysis, and inject some efficiency in the Scheme’s operations, Management undertook staff rotation and transfers focusing mostly on those who based on the BNI investigations were not involved in the ghost name scandal.

Establishment of call Centre

As part of reforms following exposure of financial malfeasance and the need to get more interactive with national service personnel, Management decided to establish a call centre to receive complaints from service personnel located all over the country. This has tremendously improved the services of the scheme in terms of deployment, postings, registration and certification processes as a lot of people who needed clarification with these processes are sorted out immensely.

Introduction of the Urban Traffic and Sanitation Management Module

In widening the relevance and strengthening the effectiveness of the scheme within the socio-economy of the country, the scheme has introduced two new operational fields/module in the scheme namely: the Urban Sanitation support module and the Urban Traffic Management Module. Interestingly, a few Monitoring exercises carried on these two modules attest to the fact that the spirit of Patriotism and National Service is being ignited in the life of the youth who are currently enrolled in these modules. And this is one of the key mandates of the scheme.

Farm Produce (Fish, Pigs and Crops)

Some statistics from the Project Unit of the Scheme in its 2015 Project Assessment report requested by the board, between 2012 to 2015, indicates that the scheme has been able to produce 58,075 (50kg bags) of maize from all its farms across the various regions.

In the area of livestock 1,700 fingers of Catfish, 220 pigs and 147 rabbits have also been produced within between the 2013/14 to 2014/15 service years.

Provision of cash till machines at sale points

Management observed that cash sales from all our sale points in this office were not bringing in the right and much needed revenues to the organization. Management therefore decided to procure and install cash till machines at the various restaurants and snack bars. The actual expenditure figures reported by the Accounts and the Internally Generated Funds unit indicate that, the daily revenue usually accrued from the restaurants and bars increased from about GHS 680 to GHS 2,400.

Introduction of the E-ZWICH Platform

As part of fighting the war against the corruption, the management of the scheme in conjunction with GIPS have now set-up and launched the E-Zwich platform for all service personnel for the payment of Personnel allowances. This has help to cut down the acts of fraudsters who over the years have been double registering at places in order to earn more allowances. Again, the platform has also assisted to save the scheme almost GHS 128 million all from the allowances of about 35,000 personnel with doubl registration and wrong details.

Expansion of new reception chamber

The main reception at the Head Office was becoming congested, as the number of visitors received on daily basis continues to increase. Management therefore decided to expand the visitors' side of the reception and moved the receptionist into a newly constructed chamber.
